Patriot Fever

The life of a Patrick Henry Patriot this year was much more than classes, books, and studying. Most students were able to combine learning with their own special kind of fun. Whether it was marching, singing, acting, dancing, cheerleading, or playing on one of Patrick Henry's many athletic teams, the '81-'82 Patriots had spirit. Some took part in school activities such as ASB, class competitions, and rallies; while others simply did their own thing in their own way. But whatever they chose to do, the Patriots did it with style. It has always been this talent, for adding spirit and individuality to their school lives, which has set Patrick Henry students apart as they continue marching to the beat of a Patriot "drummer."

AT TOP: Sandra Guerrero and Robin Pherson reflect the spirit of Patrick Henry students: "We're number one." AT RIGHT: Howdy! Jimmy King is accustomed to having his picture taken, while Laurie Russell is a little camera shy. ABOVE: Students participated in Homecoming in many ways; here are Cassandra Walbert, Shawne Rubadou, and Janet Farace clowning around.

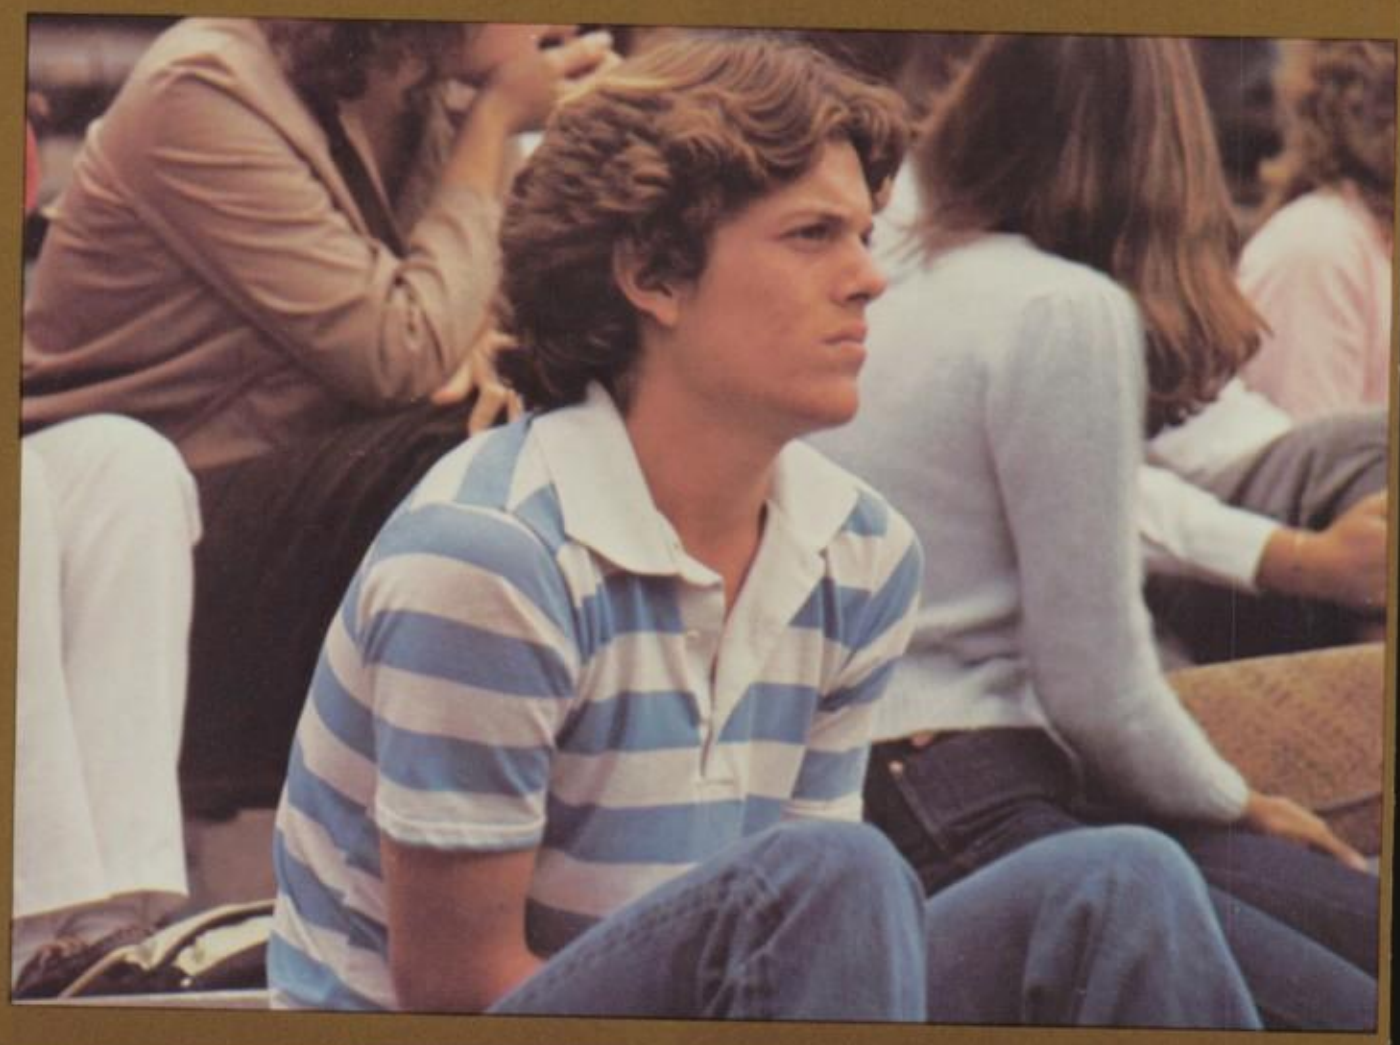
Patriot Faces



Since Patrick Henry is filled with the many differences of people, races, cultures, nationalities, and personalities, one can see why there is a variety of faces on campus. With every glance in the hallways of Patrick Henry, one can see assorted emotions displayed on the faces encountered. Each individual has their own way of expressing their emotions, and the same emotion is not going to be reflected the same on two different faces. In spite of the great size of this school, the uniqueness of each face preserves individuality.

AT TOP: A pensive Steve Fackrell waits for the rally to begin. AT RIGHT: Exchange student, Ewa Simonson, shows her Swedish charm. BELOW: Concentration. Phonephet Panyavong knows what the word means. FAR RIGHT: Liberty Belle Betty Nguyen smiles shyly during lunch.

Patriot Fun

Even with the rapid movement of things at Patrick Henry, students still find time to have fun. Whether it be at lunch, games, rallies or dances, Patriots know how to enjoy themselves. Many gather together before school and during lunchtime to talk with friends, socialize, and with the number and variety of students, meet new people. The class competitions and the attendance at other events show the spirit of the student body, and each student participated in his or her own way. Patrick Henry gives the opportunity for the students to create fun, and various paths for each student to follow. Participating in a human float, throwing pies at a favorite teacher, dressing up in costumes, or cheering on your favorite athletes offered something for everyone.

Student life at Patrick Henry may be described in three words: friendly, exciting and fun. There was always something happening at good ol' P. H.H.S., whether it was a rally, sporting event, class competition or just plain "hangin' out" in the quad. Students at Patrick Henry were always supportive and enthusiastic, which made Henry one of the most spirited schools around. Our Student life was definitely one of the highlights of P.H.H.S.

TOP: David Rozansky with the award winning Class of '82 float. TOP RIGHT: Suzanne Meier, "Call on me, teach." FAR LEFT: Sylvia Poolos, it grows and grows. LEFT: Suzie Chu and Michealyn Wilson end the rally with a Patriot cheer.

Pre-Game Patriot Spirit

Henry's pep rallies were always occasions for mass demonstrations of Patriot spirit. Cheerleaders cheered while the band played the school fight song and each respective class tried to make more noise than the others. Once one was seated, the rallies offered a great opportunity to do some people watching. This sport proved to be very entertaining at the Homecoming rally with mime Mark Wenzel amusingly portraying the different personality types. The rallies were a fun way to bring together the wide spectrum of students and at the same time to honor the varsity players and to fire-up the school spirit.

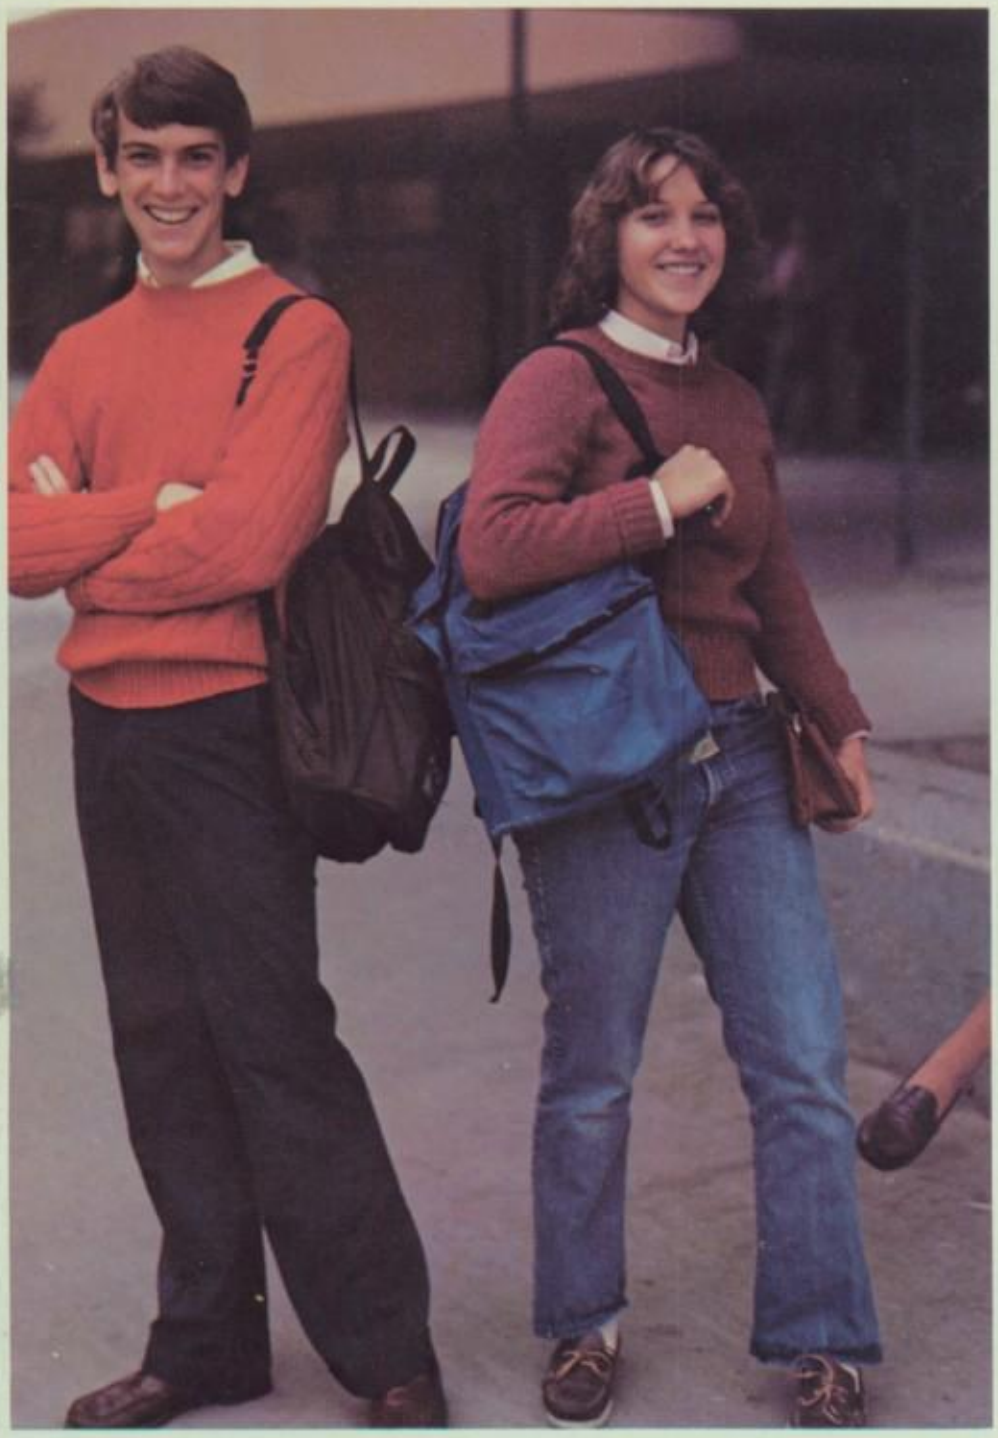
Fashions of the '80's

1981 was the year of designer jeans, metallic accessories and khaki colors. Girls' heads were garnished with braids, curls and bangs (BELOW) while any witness to the male trend in hairstyle could easily tell that long hair was definitely "out." Mini skirts made a comeback and many girls chose to expose their long-hidden thighs. Khaki colors were donned by both guys and gals but some preferred brighter colors such as red or hot pink. Some girls shimmered in their futuristic gold trimmed clothes and accessories; others wore knickers and pedalpushers reminiscent of the late '40's. The Preppy Look most definitely influenced the attire of Henry students as Polo shirts (Lacoste and Ralph Lauren), button-down shirts, penny-loafers and crew neck sweaters embroidered with the owner's initials were seen frequently on campus. Calvin Klein jeans and cords were the most popular of the designer apparel this year — for both sexes! But people not only wore designer jeans, they wore designer sunglasses as well. Vaurnets (LEFT) were the only way to go. All in all the year in style was a simply outstanding event and Patrick Henry students followed the trends like everyone else.



LEFT: K.P.O.C. — Key Preps On Campus Mark Tarpey and Kris McKenna model their fashionable as well as practical styles. BELOW: Margaret Brooks and Dennis Quick are seen in their frequently labled "punk rock" hairstyles and fashions.

Headbands were a big fad for girls this year as Mary Torres shows. RIGHT: After some coaxing, Michealyn Wilson and Denise Boiselle posed for us to show their stylish mini skirt and pedalpushers.

Lunchtime Fun? Class Competition!

CLASS COMPETITION: (klas kom' pe-tish'en). The rivalry of activities such as buck-buck, the marshmallow drop, tug-a-war, and the pull apart, between the Sophomore, Junior and Senior classes.

Class Competition at Patrick Henry has always been a prime source of spirit and enthusiasm between classes. At noontime on Fridays, before football and basketball games, masses of people migrated to the quad to observe or participate in such crazy activities as wrapping someone in toilet paper, stuffing marshmallows into one's mouth and then trying to blurt out the phrase, "Chubby Bunny," or a group of determined girls trying to untangle a ring of strong, energetic boys. Class Competition not only made lunchtime entertaining but it increased the general spirit of P.H.H.S.

Patrick Henry's 1981 Homecoming, "Back at the PHHS", was an outstanding display of spirit, creativity, and enthusiasm. All week students participated in special activities such as class competitions, dress-up days, and musical entertainment. The quad buzzed with excitement as an incredibly large crowd gathered to watch their peers throw pies in the faces of their favorite teachers. Spirit Week reached its climax on Friday, the day of the big game and Homecoming dance.

After a successful rally featuring the Patrick Henry Choir, alumni cheerleaders, mime Mark Wenzel, and a preview from the Drama Production, everyone paraded into the stadium, eager for the festivities to begin.

Meanwhile, students participating in the parade prepared their floats for the grand procession. First in line was the Honor Guard, followed by the grand Marshall, Scotty Miller, and the marching band. Because of the involvement of other clubs and organizations, this year's parade, which included 14 floats and cars, was a tremendous success. The Senior Class float, in keeping with the Beatles theme, depicted a medley of well-known songs. The Seniors took the trophy for the Best Class Float, and the Junior float, AN OCTOPUS' GARDEN, was awarded the prize for the most creative. A new award this year, the Principal's Choice, went to the Sophomore class' YELLOW SUBMARINE. Overall, this year's class floats were some of the best ever created by Patrick Henry students.

At halftime, the band, drill team, and tall flags performed a memorable Homecoming field show. As the band continued playing, the 1981 Homecoming Court made their traditional procession across the field for the crowning of the Homecoming King and Queen. This year the honors went to Mike Rinehart and Eva Libert. The Senior attendants were Latonia Addison, Steve Menefee, Maria Grant, and Jimmy King. Tanya Stevenson and Charles Gift were the Junior attendants, and Gail Rinehart and Jeff Green represented the Sophomores.

Everything went extremely well this year including the P.T.A. sponsored Homecoming dance. Congratulations to those who planned and participated in the day's events.

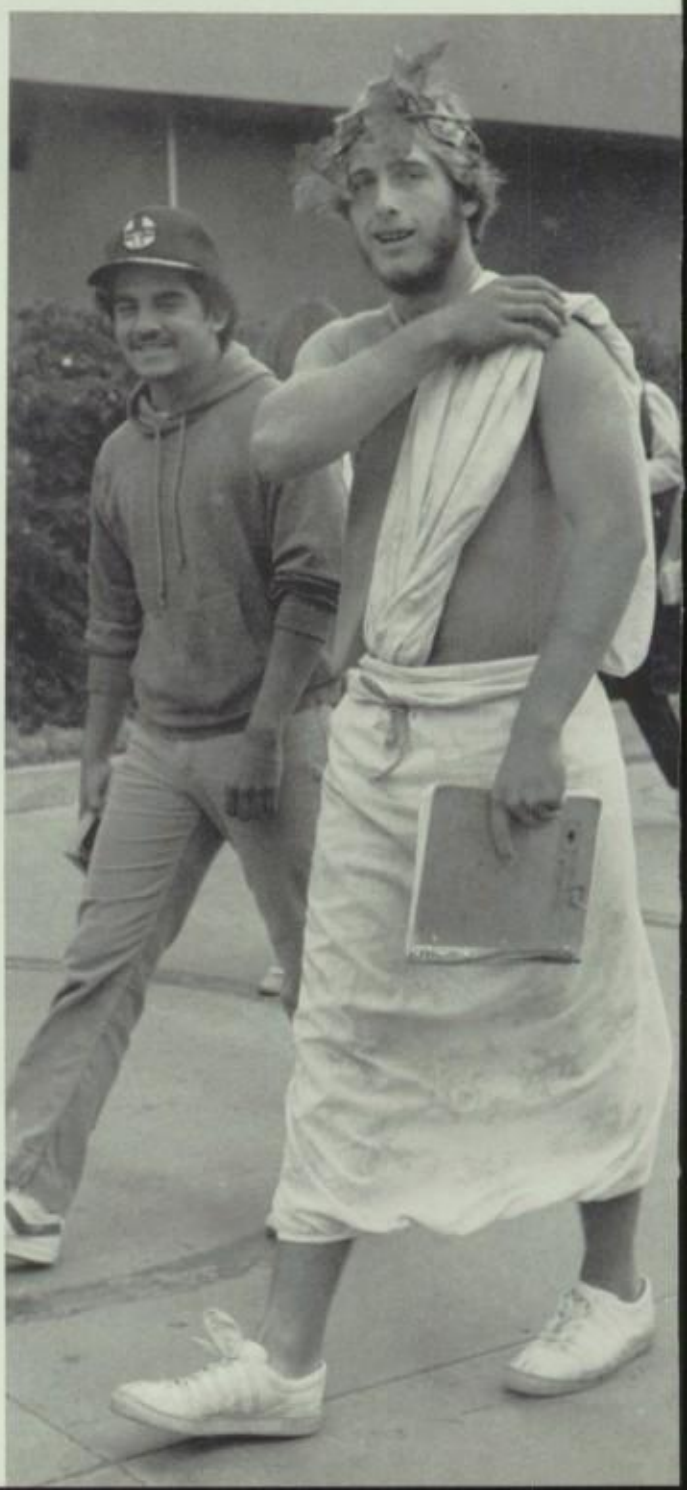
LOWER RIGHT: Mike Martinez finds Dirk Stump's dress code a little embarrassing.



Back at the P.H.H.S. — the best Homecoming Patrick Henry has ever experienced! The mood of Homecoming began early Monday morning with a Bazooka Joe Club campout in the quad and people starting to trickle onto campus in their Western Day outfits. Spirit week was filled with many new activities this year such as a pie throwing when students were able to purchase a whip cream pie to throw at their "favorite" teacher. A band played in the amphitheatre to set-off the mood for 60's day, many new and fun class competitions, and a week full of dress up days. Students showed their PH support and enthusiasm by participating all week in each of these activities, setting the mood for the "big" game Friday afternoon. But that's not all that happened Friday. Along with the traditional green and gold day, there were "Maul the Mirauders" ribbons sold, green and gold balloons, and spirit links — each to benefit a class. Immediately following the school day, students enjoyed the pep rally and then they filed into the stadium to watch the parade, which was bigger than ever this year. There is only one word to describe Patrick Henry's Back at the P.H.H.S. 1981/82 Homecoming and that simply is SUCCESS!

TOP LEFT: Senior Class Pres. David Rozansky appears incredulous at the idea of having his picture taken. ABOVE: Mr. Millstone is taken prisoner by troops on Halloween dress-up day. HALF AN HOUR? HURRY UP!!

Did You Say 30 Minutes?

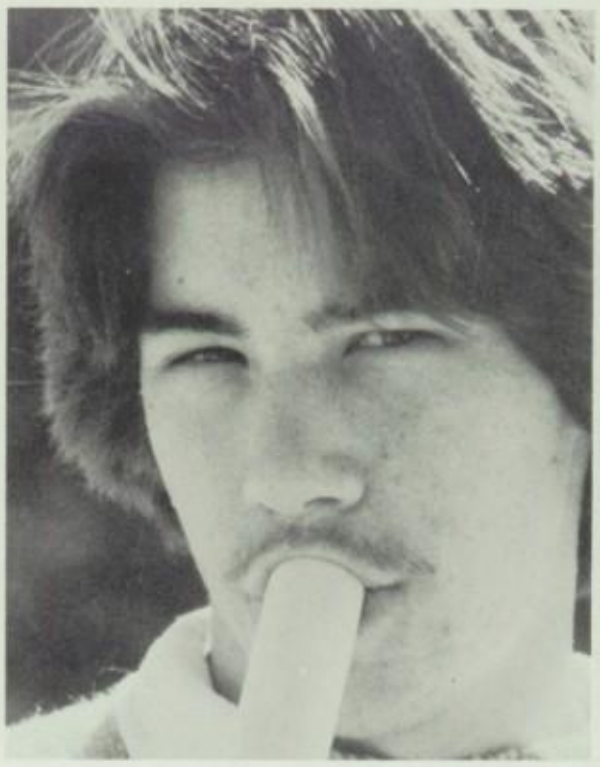
"Where's room 204?", "How do I get a schedule change?", and "Have you seen Sally's haircut?" are all samplings of the questions one hears on the first day of school. But, this year, Patrick Henry students uttered a new question. This, of course, being "Did you say 30 minutes for lunch?"

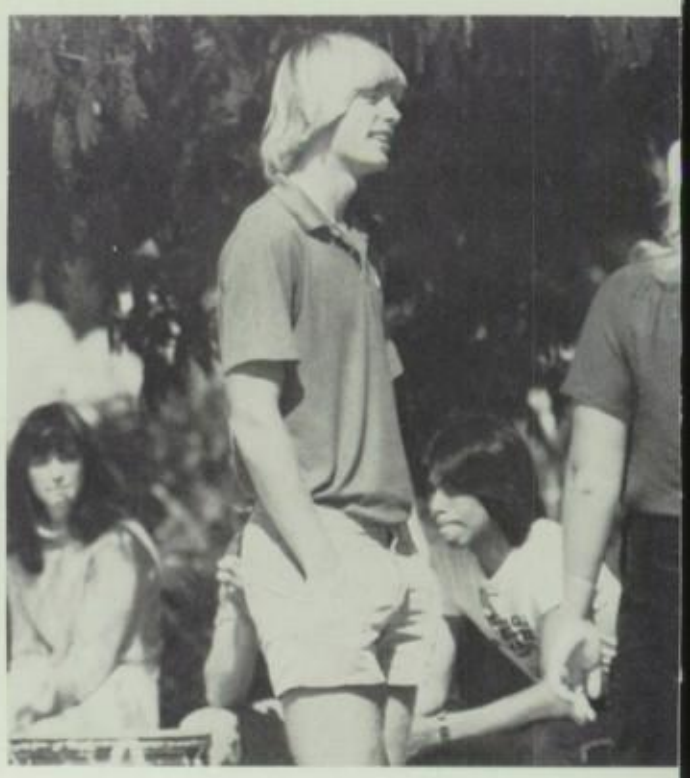
Although members of all classes stood aghast at the prospect, it hit the Seniors the hardest. Having been pampered for two consecutive years with an entire hour of relaxation at the nearest fast food restaurant or deli, seniors were forced to either remain on the school campus for lunch, or go for the "race and gobble" action.

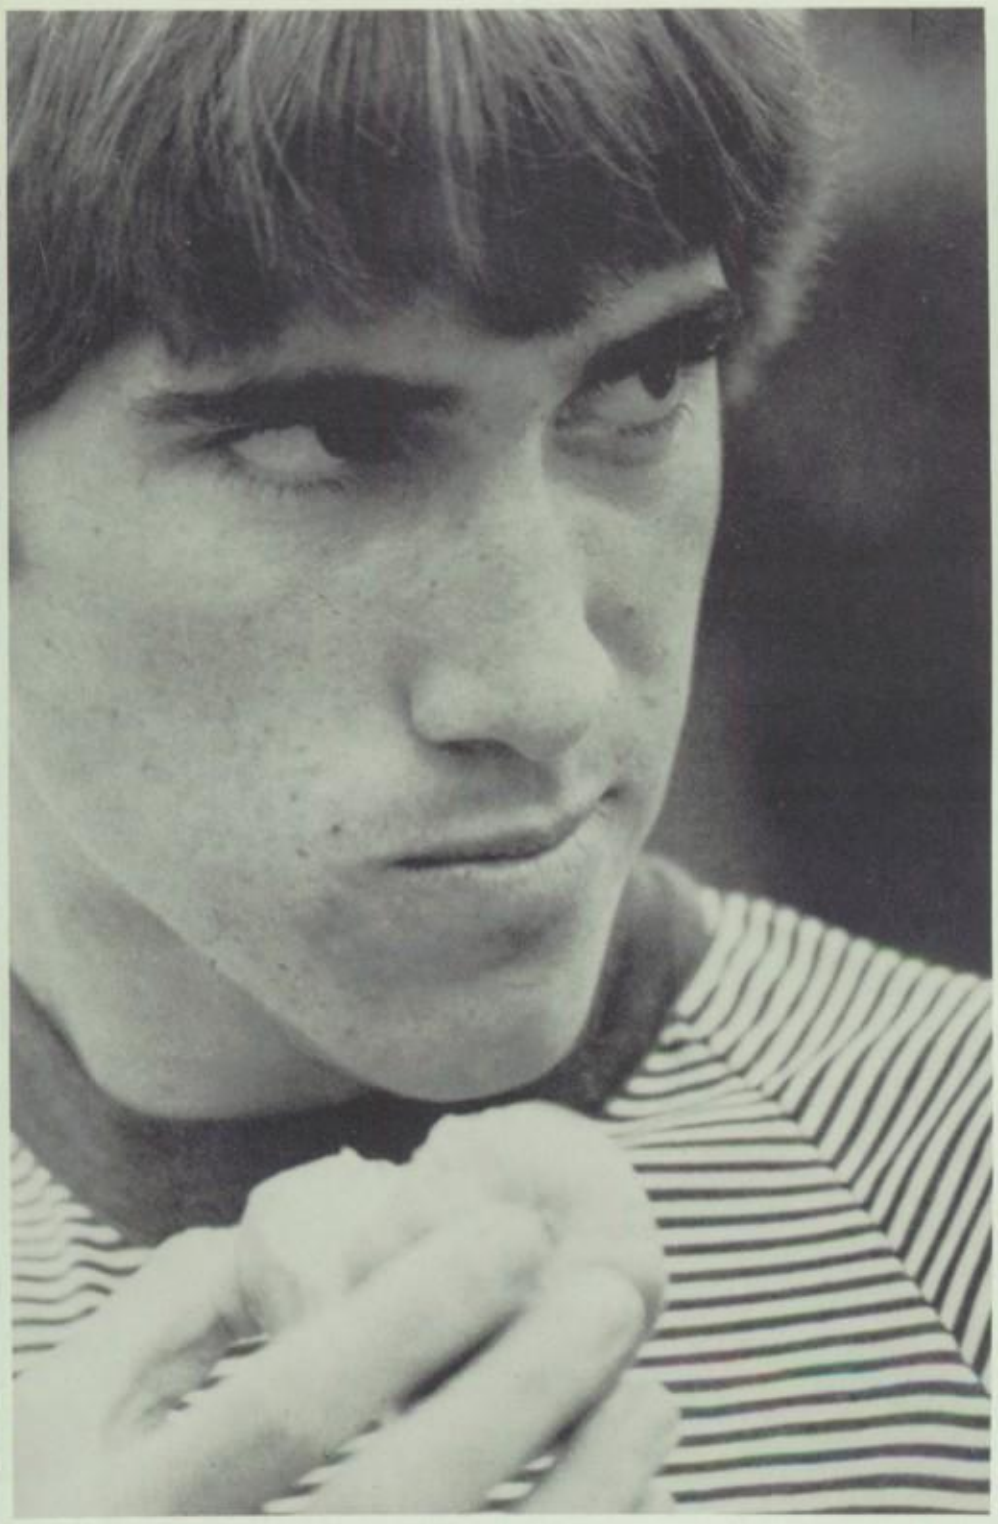
Those students making the selection of going out to lunch, were often witnessed racing into class 2 or 3 minutes late following lunchtime carrying an unfinished Arby's sandwich with extra mustard stuffed between their books. Most of them, however, got on the ball and made it to class on time.

On the other hand, Pat's Place, the cafeteria and the vending machines provided an adequate, yet somewhat tiresome cuisine for those students without cars. Brown bagging it was also an alternative offered to the Patriots, although utilized primarily by the Sophomores.

All in all, Henry students seemed to survive without the other ½ hour for lunch, and it provided a much appreciated break from classes.







THIS PAGE: ABOVE: Dawnette Gilkey savors every bite of her french fry. LEFT: Mark Brush looks like he found the worm in his apple. LOWER LEFT: Jon Heathman tries a hamburger from the cafeteria. BELOW: Michelle Bremin eats an ever popular fruitstick while friend, Sandy Henry checks out the guys.

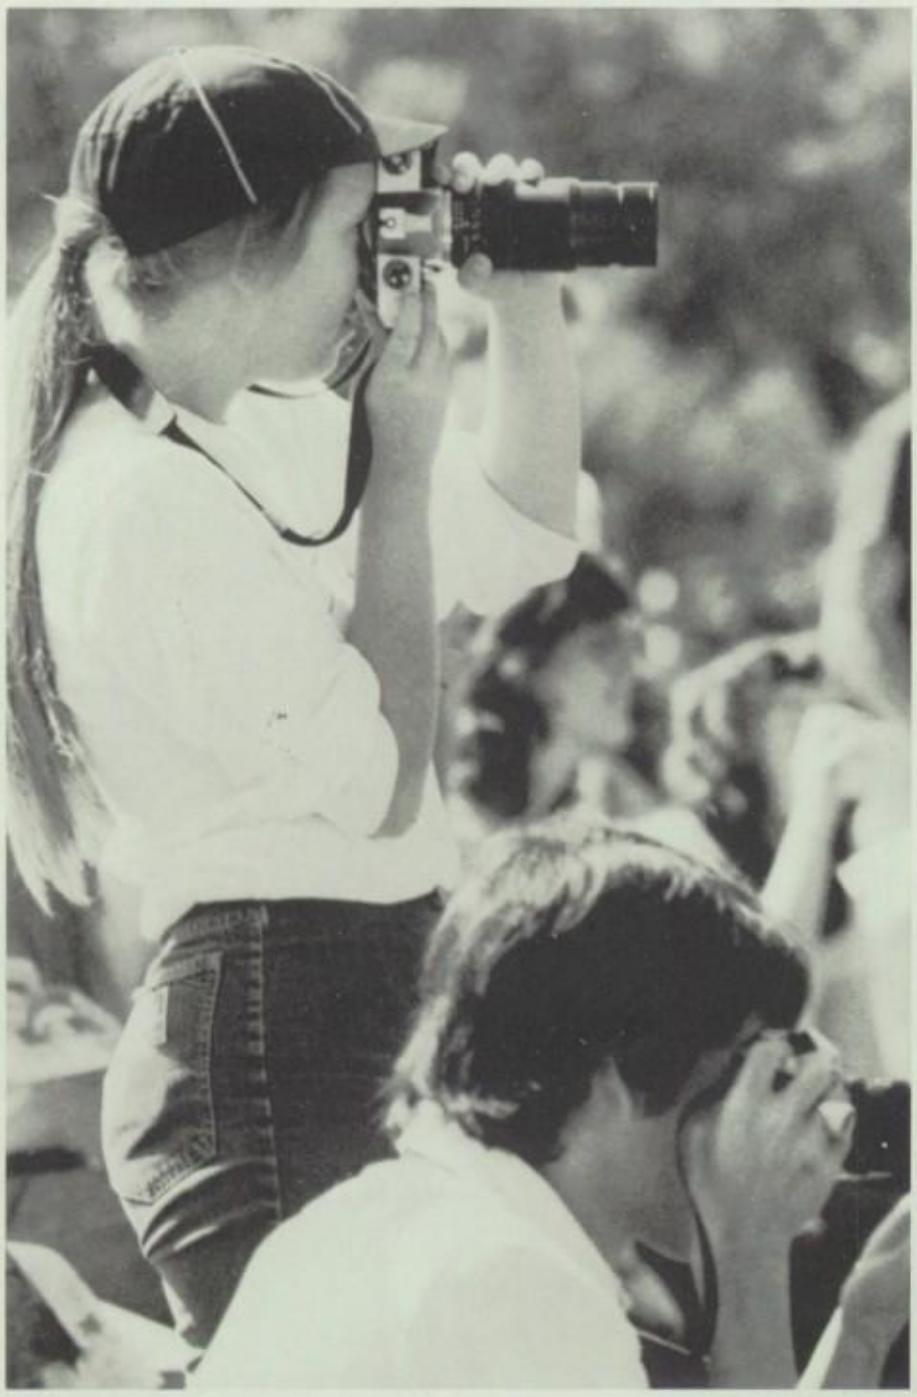
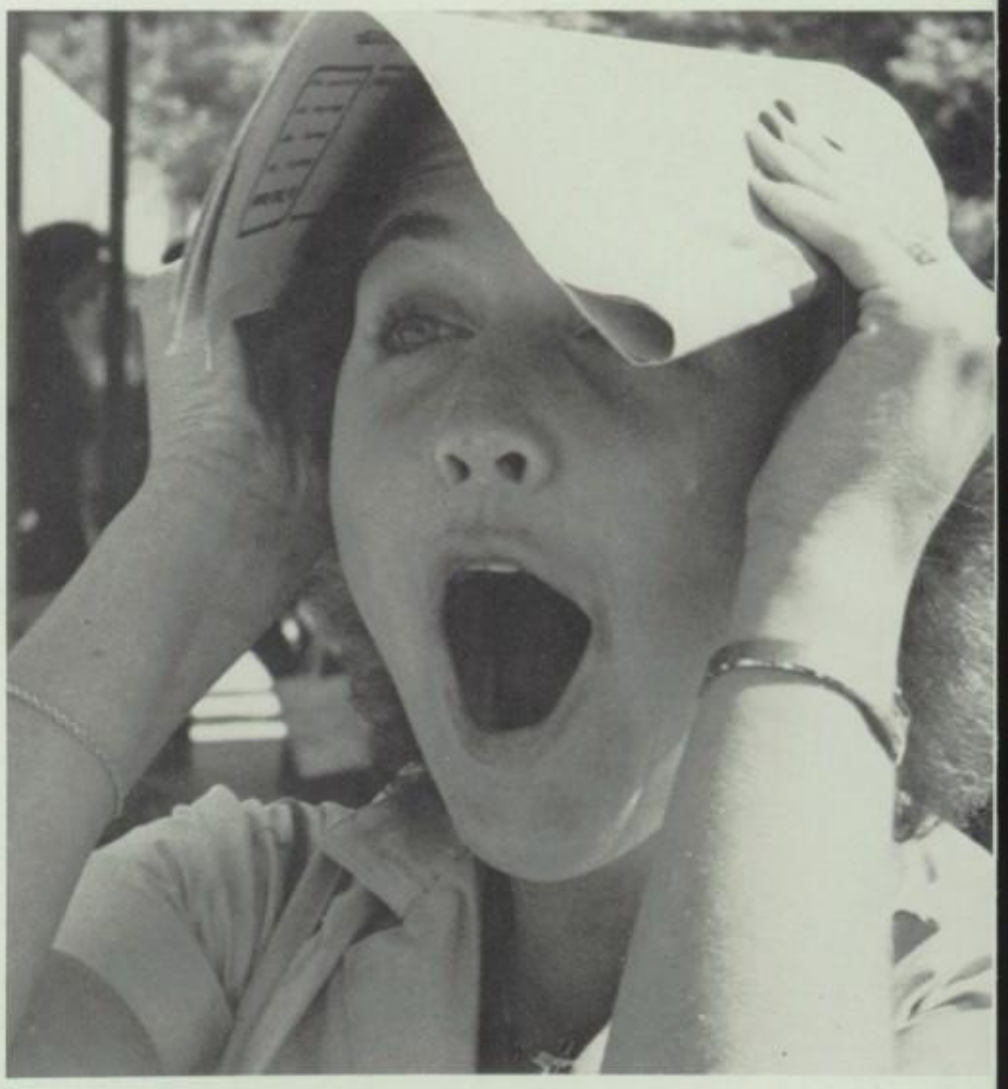
This year the school spirit at Patrick Henry was lifted tremendously from previous years. Whether it was at the class competition, during lunch or at Friday evening football games, more and more students got involved. But it wasn't the same people who were usually seen rooting in the stands. This year, a wider variety of students got involved in school related activities. School spirit began with the students feeling good about their school, teams and activities. This year that spirit was present in many students.

LEFT: Who's coming from behind Veronica Williams? MIDDLE LEFT: Kathy Mays spots her man. TOP LEFT: K. Toth and G. Rogers show their spirit on 60's day. TOP RIGHT: B. Marnell and E. Logan announce winners of class competition. ABOVE: Henry crowd preparing for a rally.

SMILE! YOU'RE ON CANDID CAMERA!!





Snap! The shutter clicks! This moment, that face, the expression! All were caught on film forever! The Encounter Staff's roving photographers shot many candids of Henry's students in classrooms, out in the quad, and around the campus, catching the typical days activities.

However, the typical day varied as much as Henry's students did. Henry consisted of students from every race, color and background. There were students who came on buses, students who lived in the area and foreign-exchange students. Each of these students was an individual and had friends who shared his or her interests, feelings, likes and dislikes.

Friends may have hung out together; however, they did mix with other groups and have friends outside of their group. All these groups blended and mixed while at school in classrooms, on the playing field, and at social activities. We really were not that different, we shared at least one thing in common, attending Patrick Henry, and most times other interests like school spirit, support and participation on our school teams. Patrick Henry was a unique and harmonic blend of different races, cultures, values, and interests for the school year.

The Drama Department started a successful year with the fall show, RIMERS OF ELDRITCH. Due to the outstanding direction of Mr. Auer, Mia Gordon and the superb acting, the show was chosen to represent San Diego in the Southern Cal. Educational Theatre Association's annual festival held at Occidental College. The spring musical, FIDDLER ON THE ROOF upheld the tradition of high quality here at P.H. There were eight performances during February and March, and all audiences enjoyed the theatrical extravaganza. The third show, presented by the production class was a college based on the theme "Adolescence and Growing up." The show was directed by student, Elisa Rush and was a successful culmination of an outstanding year.

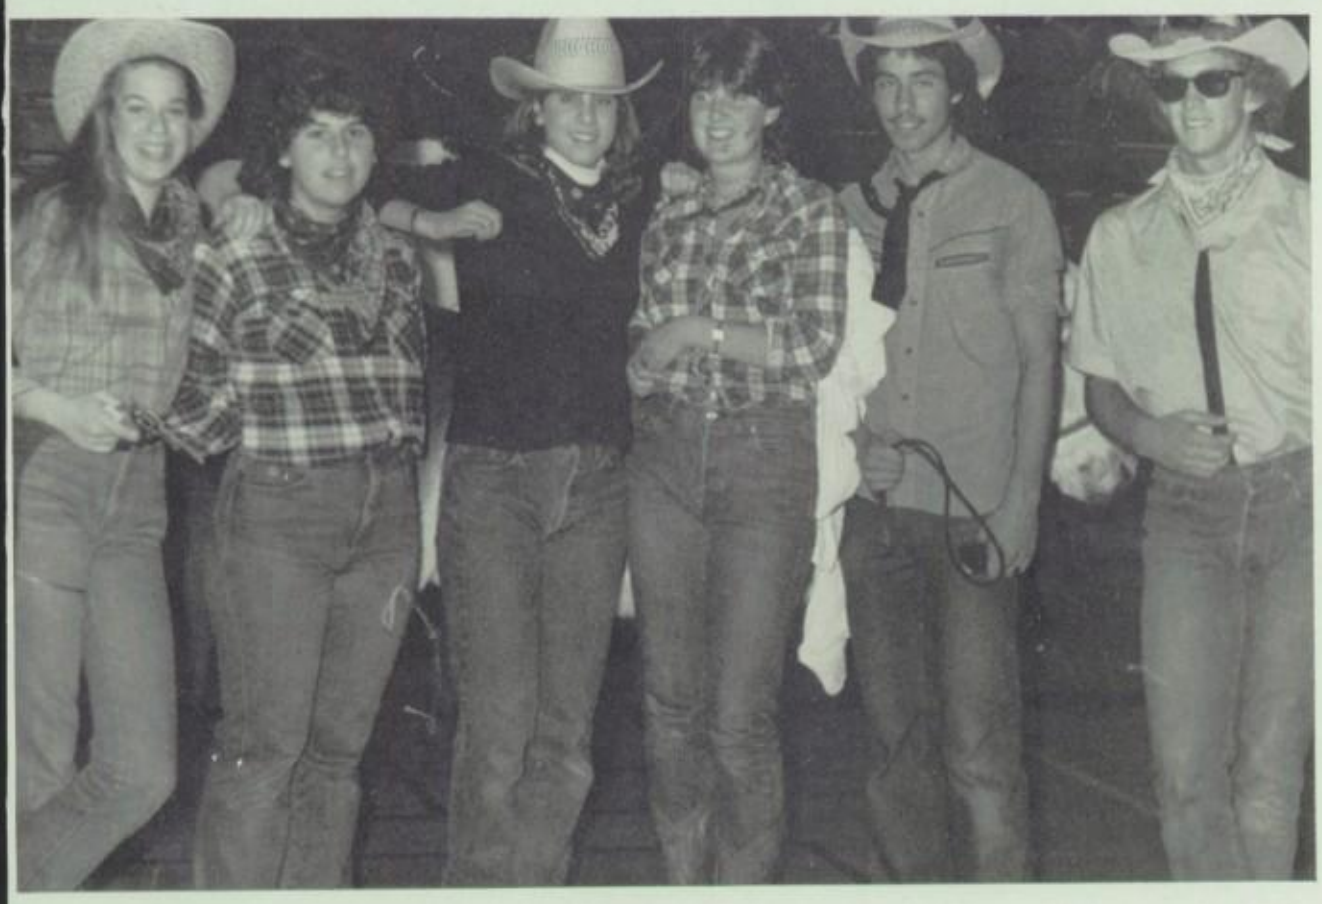
"Reflections on the Water" was the theme for the Winter Dance, which quite appropriately, took place on the U.S. Berkeley. The Berkeley provided a serene background for a night of romance and dance. The band was "Presence" which played for the couples from 8:00 to 12:00, when the Winter Dance ended. The Winter Dance was co-sponsored by both Girls' League and Key Club and was an enjoyable night

Band Variety Show

ABOVE: Nathan Weed. UPPER LEFT: Greg Terrell, Stafford Rau, Matt McPherson, Scott Boltz. UPPER RIGHT: Ted Jones. RIGHT: Stafford Rau.

The Patrick Henry Band put on their annual Variety Show on January 22nd and 23rd. It was planned that the show also would play on the 24th, a Saturday, but due to a school policy, it was not possible. Surprisingly enough, the show made a bigger profit this year than last. Under the direction of Scott Boltz and Ernie Maschner the show was fresh and distinctive. The acts returning from last year added new twists and those coupled with the new acts, were completely enjoyable. The two favorites, just as last year, were the Wolfgang Bernstein Dance Troupe, and the Dixieland Band.

Donkey Basketball



UPPER LEFT: Star shooter, Terri Racine trots down the court for another score, while being pursued by Tracey Hollander. UPPER RIGHT: Sophomore Suzanne Meier's donkey looks a little unhappy! ABOVE: Leslie Shumate engages in a tug-of-war with her mount. LEFT: Wanted, "Senior Gang" of dusty trailriders, Tricia Drury, Pam Szutenbach, Shari Markson, Erika Logan, Jerry Archambeault, and Mark Shaffer.

The Donkey Basketball game this year was a little different from previous years. Due to indifference on the faculty side a mere two faculty members showed, Mr. Hale and Mrs. Beecher. However, the show must go on, and two student teams were organized with Captains Hale and Beecher. Despite the strange start, the evening of playing pretend cowboys and trailriding was a success! The teams were denoted red and yellow, with the red team being defeated 36-32 in a close run for the money. And so the evening ended with the Big Yellow taking the victory.

The Smash Team

"Whap that birdie!" This year's Badminton Team did better than ever! Ranked number one in our league at the start of the season, the team captured the Eastern League and CIF Championships.

Leading the team were captains Laura Gray and Ron Aguinaldo, along with returning players Dzung Ha, Hai Johnson and Ton Luangviseth. Dzung and Hai were the #1 men's doubles team in the city.

The team practiced two and a half hours everyday after school. A few of the players practiced two or three times a week throughout the summer as well. This rare dedication helped bring the team to its outstanding position.

The Badminton Team was very unique in that it had many different cultures represented. Because of this diversity the players learned a lot from each other and began friendships which would last throughout the year.

Girls Tennis Takes Title

Victory! This was the most common outcry heard during the 1981 Girls Tennis Team's season. Their success was credited to their fine talent as well as the support given by Coach Marshall.

Jodi Neuman, Alison Caplan and Connie Lemon, all returning seniors, led the team in its singles. Other excellent players included Suzanne Carroll and Yvonne Kouw, a first year player who recently moved here from the Netherlands.

This year's doubles was led by the teams of Dee Coons/Amy Hill and Demitri Fulton/Suzanne Carroll.

Out of 15 matches played this season, the team waltzed to 12 wins. All of their league meets were won. This outstanding record enabled them to capture the Eastern League Championship.

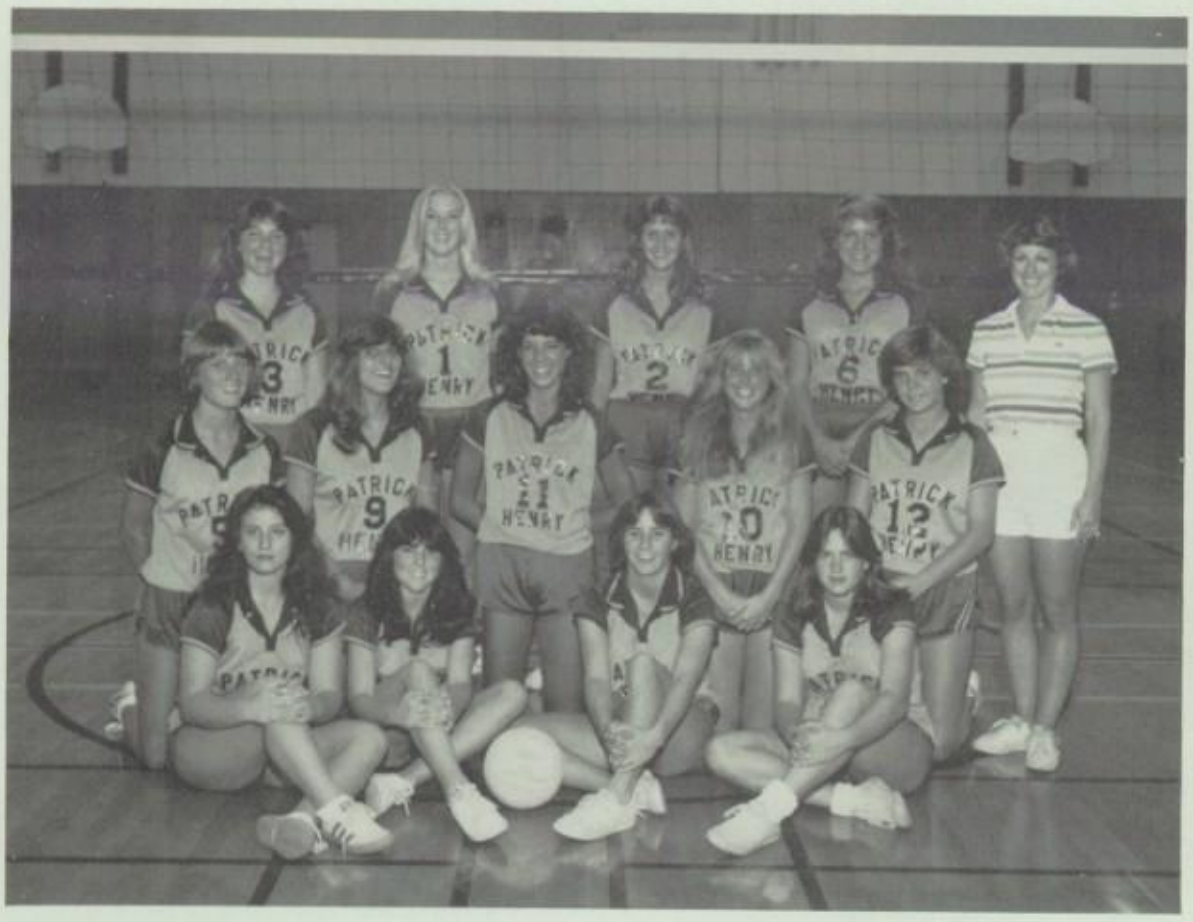
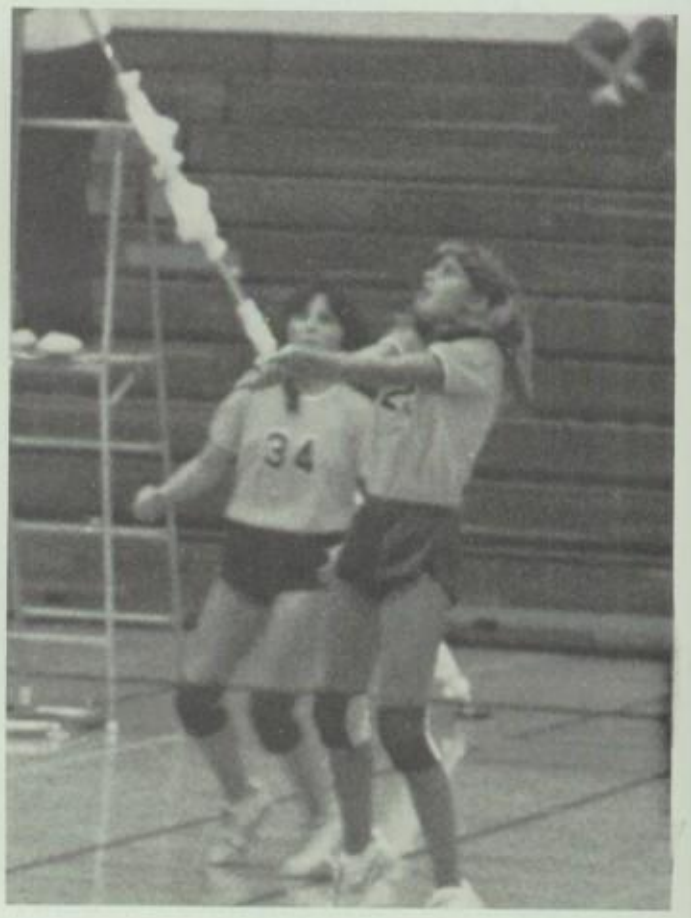
RIGHT: Michelle Morelan returns the serve to the awaiting setter. BELOW: Ana Mallet spikes the ball as Leslie Safino sets up to return the block. LOWER RIGHT: Lisa Moore bumps the ball to the setter as Barbara Mays anxiously awaits the outcome.

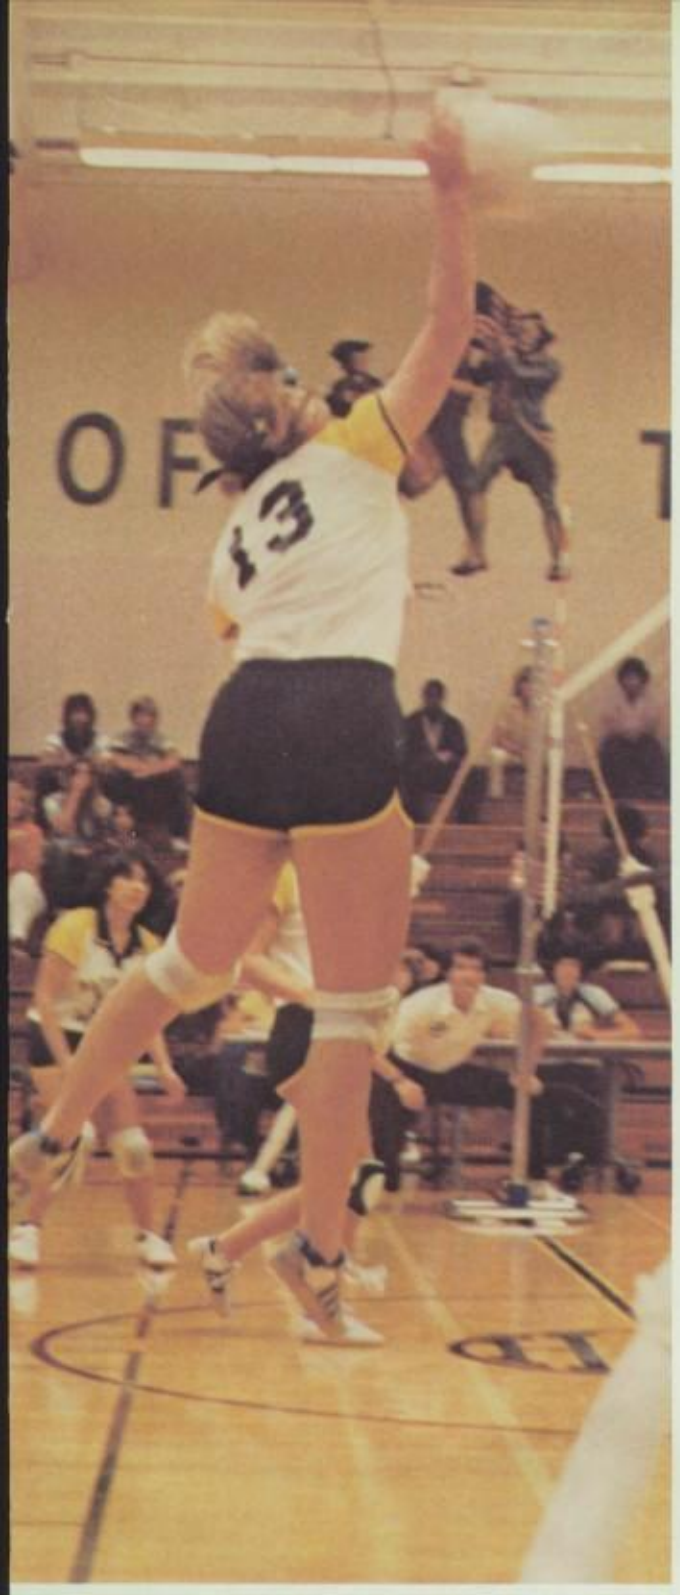
J.V. Power

Bump! Set! Spike! The ball is slammed into the opposite court. One more point for the Patriots. This was a common experience for the girls of the J.V. Volleyball Team. The team was a group of talented and athletic players. They thought they were great and this positive attitude shone through in their accomplishments. They were rated #1 in the league, and had only one loss. They were a very dangerous and feared opponent by their competitors.

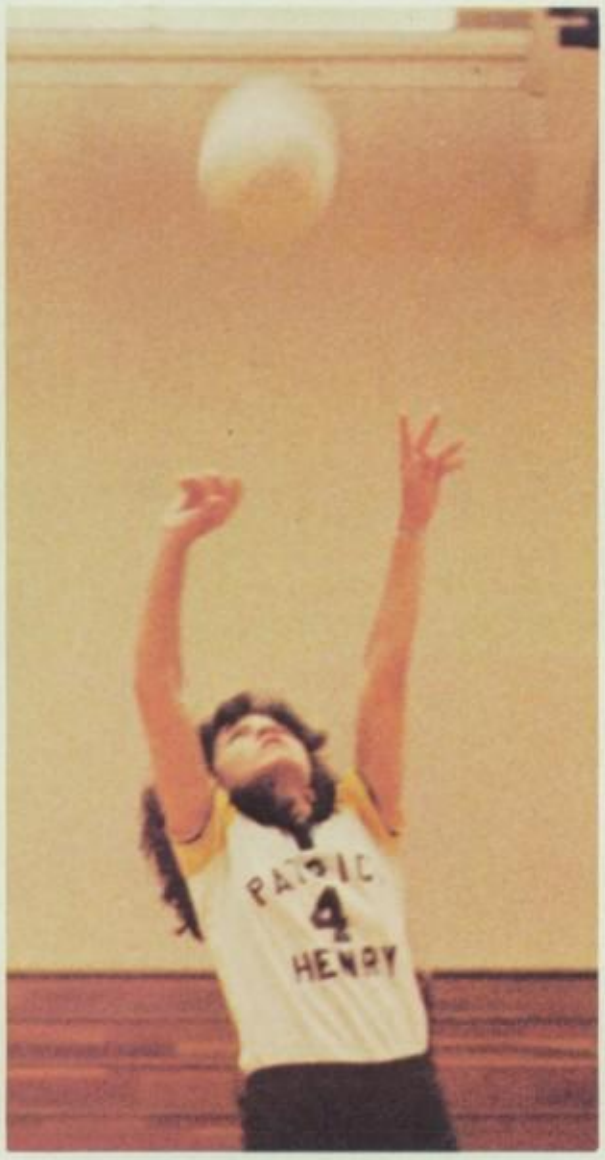
Carina Puleo and Lisa Haywood, as captains, strove to lead their team to victory. The attributes which seemed to flow from the team were a good attitude, a willingness to learn and of course, two knee pads.







Volleyball



Good Skills Pay Off

The well balanced 1981 Girls Volleyball Team, headed by Coach Ziegenfuss, played superbly this year. With all the practicing they had, the girls were well informed and knew a lot about the game. With their knowledge they went on to win the Eastern League Title. Their positive attitude and good coaching helped them in their struggle to be the best. The girls were disadvantaged some by their size, but what was lacking in height they made up for in skill. The balance between offense and defense was their major strength, but all of the girls played as a team. One for all, and all for one.

FAR LEFT: As she leaps, Suzie Schuman attacks the ball and sends it into the opposing side of the court. BELOW: Ana Mallet sets the ball for an awesome spike.

Swim's Spirit Shines Through

The Patrick Henry Girls Swim Team was one of the outstanding sports we had for girls. Out of the 50 girls that tried out, 36-40 were chosen to participate on the team. The captains, Pam Szutenbach and Karen Justice, led the girls to a rating of 4th in the league.

The girls practiced every day for 2 hours. Through the cold, dark, morning one could hear them cheering and supporting each other. That was one of the teams strongest points . . . spirit! They all got along with each other as they strove for self improvement.

Some of the outstanding players were Kary Morris, Erika Logan, Tracy Hollander and Teresa Johnson. Their outstanding coach, Coach Bowlin, supported her team with the help of many parents and friends.

Almost Made It

The 1981 Varsity Water Polo Team, led by captains Kevin Foley and Reed Gershwind, was ranked #1 in the Eastern League. The members of the team played well together and that was the key to their success. The toughest team they faced was Coronado and their greatest victory was over Granite Hills. With balance, speed and ball handling strengths, the team lacked only in the number of players. But with their positive attitude, they won almost every game. The team made it to the C.I.F. playoffs, but in the last 30 seconds of the game they lost by one point.

Spirit Keeps Them Going

Although the J.V. Water Polo Team was only average in their league, they thought of themselves as being the best. With an outstanding player such as Mike Walkowiak the team had a shoulder to lean on. Lacking in numbers was the teams major weakness which gave them little leeway for illness and injuries. Their major strength though, was their spirit towards the sport. A unique character about the team was that a girl played, and Alicia Grimes played well. The team, now with experience, has next year to look forward to and the varsity squad.

Girls' Enthusi-asm Excels

Patrick Henry's Girls Cross Country Team was bursting with talent this season. This was no wonder considering all the sincere interest and discipline they possessed. Together they worked to achieve their common goals; to have personal improvement; to be as good a team as possible; and to have a good time.

The team practiced everyday after school as well as many Saturdays and Sundays. But the hard hours of work payed off. They placed 2nd overall in the Eastern League. Eileen Dyer was ranked 4th best runner in the league. Other outstanding runners included Ruth Saiz and Lolanda White.

The team was a very close group of athletes. Each team member was shown a lot of respect and enthusiasm by other team members and Coach Lowry.

Boys Sprint For Their Title

Sprinting, pushing, pacing oneself, trying, pulling . . . the runner was in agony over his last few feet but the exhilerating feelings experienced when passing the finish line made it all worthwhile. These were our Boys Cross Country runners, one of the largest teams in the city. Seniors Scott Jamieson and Howard Teaze led the pack of runners to many victories.

Out of the 40 students that tried out, anyone could make it as long as he contributed to the team effort. "Our goal is to run to the best of our ability and to complete the meet fairly," Coach Runge explained. The team practiced daily during the week. This practicing payed off as they were first in their league.

Slow Season Picks Up

Jimmy King and Mike Rinehart led the Patriots from a slow beginning to a place in the C.I.F. playoffs. This year, Jimmy displayed his talent as a great player and fine leader. He excelled in both offense and defense; his success on offense was mainly due to the precision throwing of the #1 quarterback in the Eastern League, Mike Rinehart. Also, two offensive backs, Gary Robinson and Bob Fuller, added to the strength of our team; Jimmy King, Mike Clippinger and Steve Menefee kept the crowd cheering and the scoreboard working continuously.

Donny Shafer's powerhouse foot came in handy for extra points, and he tied the C.I.F. record of three field goals in one game.

Olen Grant and Mike Martinez, defensive co-captains, along with Dirk Stump and Mark Scozzafava successfully led our defensive line. Unfortunately Scozzafava's season ended early with an injury to the knee. Jimmy King, Dominic Acquista, Dave Schofield and Carlos Aguilar made many interceptions this year.

On Top And Undefeated

The #1 ranked Patriot J.V. Football Team deserved to be where they were. Out of the 100 students that tried out, the team was narrowed down to 55 players.

The offense was led by quarterback Steve Stalder and an outstanding tailback Danny Finnerson. Leading the #1 rated defense was Richard Butcher, Peter Cacamise, Mark Salamy, Kent Hunter and other tough players. Each person had their own special talent which helped to make the team a winning one.

In the last 30 seconds of a game, Brian Webb kicked a successful field-goal which led the team to defeat their toughest opponent, Morse.

The togetherness and family feeling of the team helped them as they strove to be #1. This feeling payed off as the team went undefeated.

Soccer

Enthusiasts!

What made the Patriots J.V. Soccer Team so popular? The answer is it had outstanding talent and enthusiastic members. Out of the fifty to sixty boys that tried out, twenty-five made it.

The teams excellence was the result of many different factors; endurance, possibly one of the most important. The players practiced every day for over two hours.

However, this dedication would not have been possible if it weren't for the fact that the members got along so well. Even though they joked around a lot, they still treated each other with respect.

The teams toughest opponents were La Jolla and Pt. Loma, but their determination helped them through the games.

The teams expect to be as enthusiastic and hard working next year, so . . . Watch Out! Here come the Pat's!

Liveliness Shines

One of Patrick Henry's most spirited teams would have to be the Varsity Soccer Team. Their love of life, as well as soccer, was apparent as they practiced 6 days a week. With grinning smiles, they would end their grueling practices in mud fights. Rain or shine, usually rain, one could always find the soccer team out on the field.

Team captains, Jon Hjerstedt and Alden Holmes, led the team to many victories.

When the team was asked what some of its weak points were, the reply was, "We don't have any weak points . . . we're Patriots and we're #1!"

Softball

Young But Ambitious

The J.V. Softball Team was a proud part of the winning tradition at Patrick Henry. The team was made up mostly of sophomores with a few juniors. They supported each other throughout the season. Their spirit shone through, even when they weren't winning.

The primary attribute of a good softball player was the desire, skill and knowledge that she wanted to achieve. The team's one weakness was trying to hit the ball against some of the better pitchers.

With the outstanding help of Coach Shafer and Coach Crusik, the team participated in a good softball year.

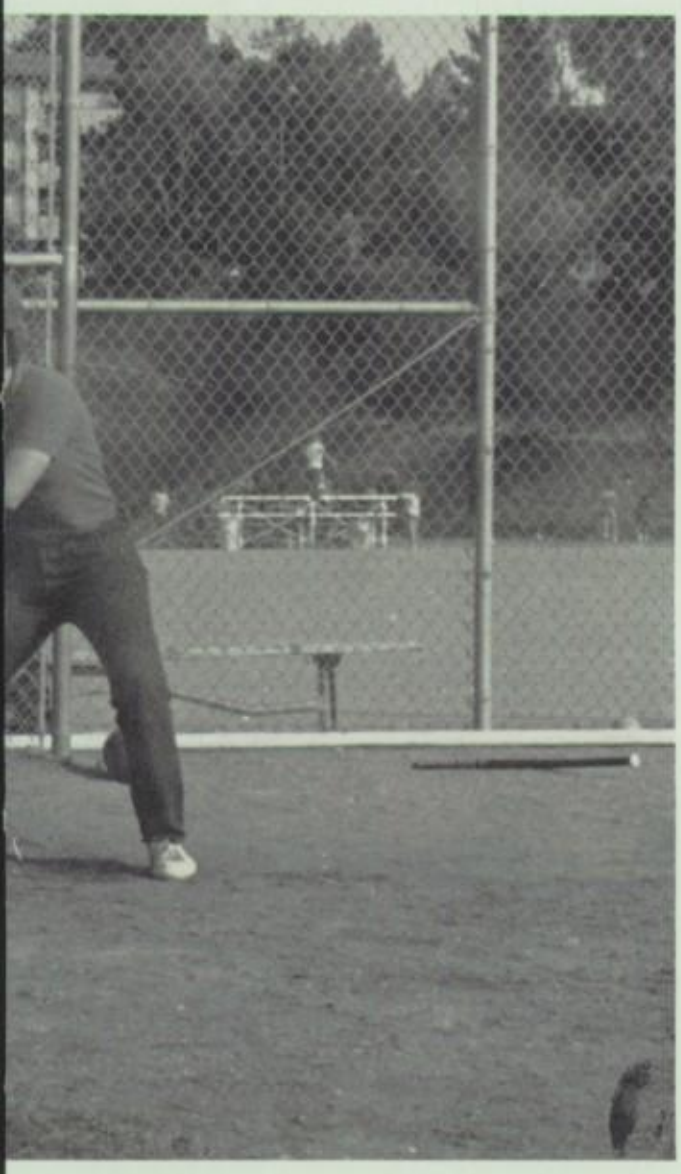
Fielding Excells

"Take me out to the ball game!" The 1981 Varsity Softball team had a high spirited year. They were rated first and second in the league. Suzie Schuman and Lori Witz helped lead the team to their many victories. The team excelled in their fielding abilities.

Coach Imlay, had coached J.V. or Varsity softball for 5 years. He enjoyed coaching the girls in a sport that they excelled in. The teams toughest opponent, as usual, was Madison. The team's goals were to have fun, be rated #1, and establish good friendships.



Basketball

Hoop-ball at its Best!

For the second consecutive year, the Patrick Henry Varsity Basketball Team entered the season as the county's number one ranked team.

Living up to such pre-season predictions, the Patriots took off early and never looked back en route to a 15-1 on-the-court record and their second CIF Championship in the past three years.

Led by All-CIF performers Billy Washington and Troy Thrower, the Patriots got out of the gates quickly, compiling a 15-game winning streak before league play even began.

The Patriots then proceeded to capture the Eastern League Championship, losing only once in eight games. Thus advancing to the playoffs, they eliminated Monte Vista and Morse to earn a third straight appearance in the Sports Arena.

There, in the title game, the Patriots edged Fallbrook 67-66 for the championship. Once again Washington and Thrower led the way, Washington scoring 28 and Thrower 22, including a decisive free throw with six seconds left.

Sophomores!

"We are the USC of High School Athletics! We're #1!" This was Coach Baranski's exclamation as heard throughout the campus. J.V. Hoopball, the ever popular sport of the eighties did exceptional this year.

A very unique aspect of the team was the fact that all fifteen of its players were sophomores. This both helped and hindered the team. The team had a rough beginning because none of the boys had ever played together before. On the other hand, this draw back became an asset in that the players were able to grow and develop together into a winning team.

The team practiced three times a week and filled in the other two days with games. Many players also participated in summer league and basketball camp.

Morse, Kearny and Mira Mesa were the team's toughest opponents, but the conditioning of practice and the great teamwork present helped them through these hard games.

Preppy Patriots

The girls on the Field Hockey Team usually were not hard to pick out of a crowded corridor. They were always the ones with the bruised shins, ankles and knees carrying their trusty hockey stocks.

Although the sport was very physically demanding, requiring both arm and leg strength, the girls also needed good ball control and an aggressive attitude.

This year, the team was rated third in the league much accredited to the outstanding players; Ruth Tabor, Erika Logan, Kathy Mays and Maria Cormier. The returning senior players, Erika Logan, Ruth Tabor, Karen Hultgren, Kathy Mays and Tracy Hollander, all contributed to the team unity and to the team's major strength . . . experience.

Out of the 56 girls that tried out for the sport, only 13 were chosen by Coach Dirker. These chosen few provided the team with, as they said, "mega spirit."

Valiant Players

Field Hockey is an extremely difficult and physically exhausting sport requiring experience and hard practice. But, instead of looking at this practice as a burden, the girls on the J.V. Field Hockey team looked upon it as a challenge.

Most of the girls on the team were new to the sport, making it doubly difficult for them to master their skills. Despite this obvious factor against them, the members of the team fought through the season valiantly. One of the teams best qualities was their undying enthusiasm and spirit which proved truly an asset to the girls.

Of course, all 19 girls on the team gave their all; but some were outstanding in their efforts. A few of these great players were Donna Jensen, Paula Saputo and first year player, Andrea Weiss.

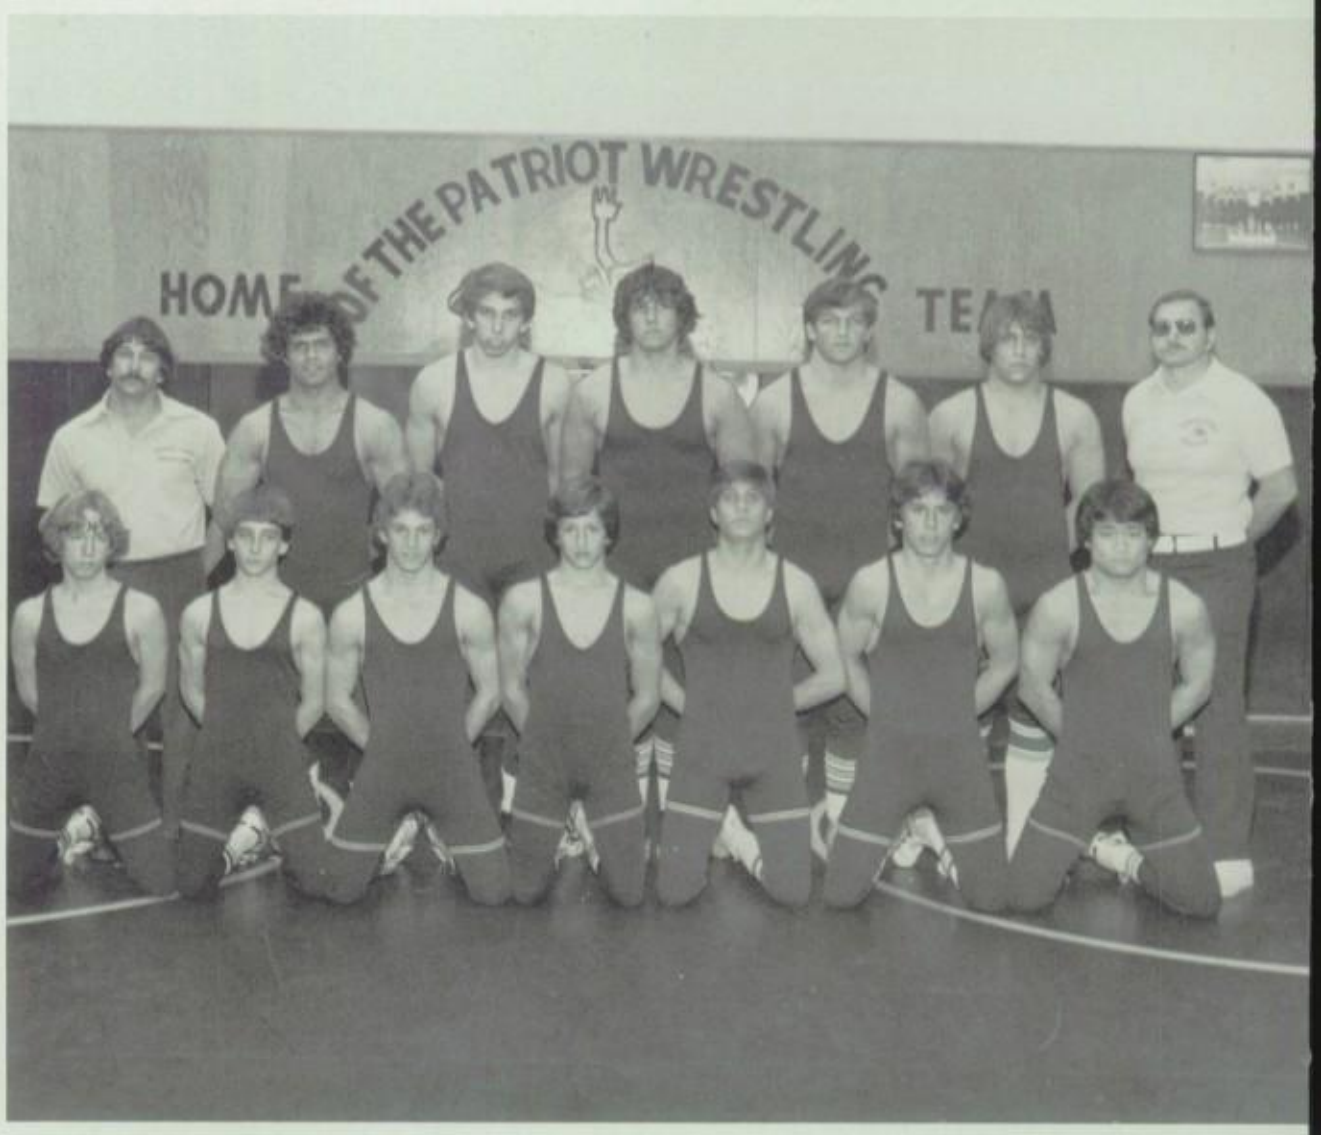
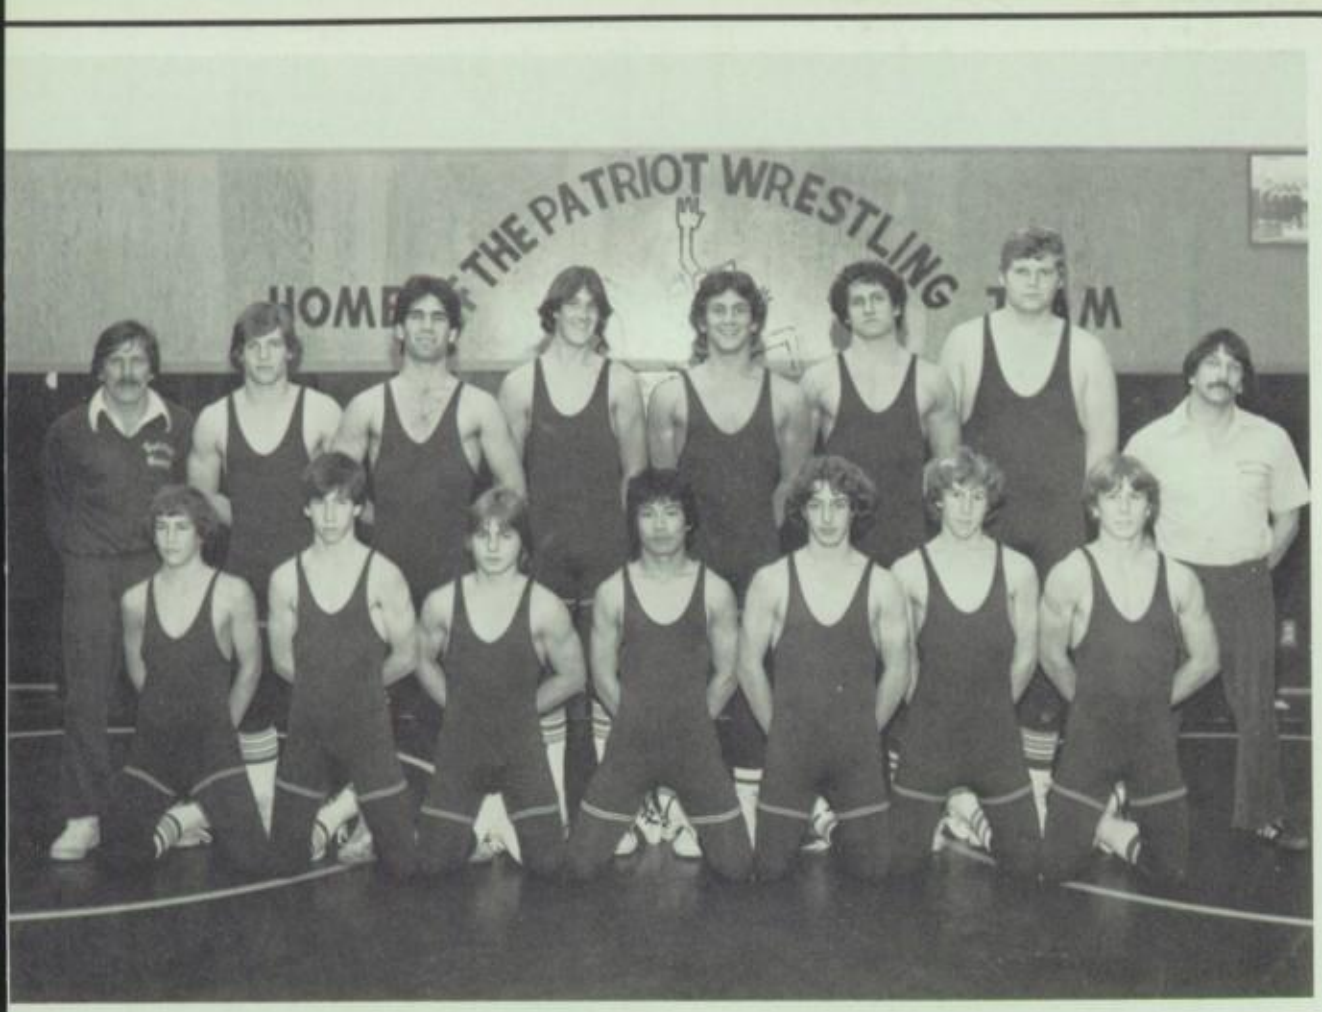
A Success Again!

One, two, three! Patrick Henry does it again. This year's wrestling! team did an excellent clean-up job on the other schools. With such outstanding returning players like Greg Mitchell, Richard Ito, Jim Kassab and James Kosic, their teams success was easy. At the start of the season our players were rated as high as #1, and our team #2.

This superiority was very understandable considering the dedication displayed by the guys. With the strength and conditioning the team obtained from their daily three hour practices, they steadily improved. Their improvement proved necessary against tough teams such as Madison.





J.V.'s Fearsome Team

The J.V. Wrestlers had a really good season this year. Although all the wrestlers were first year, they were rated excellently. Dave Rite, Dave Kilborn, and Jeff Boone led the team against tough opponents such as Madison.

Everyone who tried out for the team made it, but many dropped out because they couldn't handle the rigorous three hour workouts.

The team treats each other with a great deal of respect. It was difficult to go out on the mat all alone. As a result, the wrestlers developed an unusual comraderie. Coach Bassett jokingly said, "The most motivating factor in wrestling is fear!" Fear for the other team, maybe, but not ours.

Good Girls Win

Basketball

We're number one!! This chant could be heard all over Patrick Henry but especially from the Girls Varsity Basketball Team.

Because of the team's determination, speed, and their overall good attitude, they began the season with an A #1 rating. Returning players Suzie Schuman, Ava Gill and Vicki Shelton helped lead their team to their outstanding position.

Out of 36 players who tried out, twelve made the team. These twelve worked as well together on the court as they did off.

Much of the team's expertise was credited to their coach of fifteen years, Fritz Ziegenfuss.

Good job girls! You're typical of our winning patriots!

Young and Mighty

The Girls Junior Varstiy Basketball Team was led by juniors and inexperienced sophomores. Their inexperience was not a major problem, though, because the girls helped each other perfect their basketball skills. With the coaching ability of Coach Bowlin the girls were able to overcome all fears the court offered them. "We run around and scream a lot, but I've never learned so much about one sport," explained Kim Sare.

With enthusiasm and skill, the girls started their season with a winning streak. With the help of Barbara Mays, Maria Cormier and Michele Donais the team was a big success!

No Need For Speed

The Varsity Baseball team began the season well rated in the league, and had the talent and spirit to succeed in CIF competition. The talent included such outstanding players as, Jim Parish, Jeff Dunn, Jim Lingren, Mike Rinehart, and Nick Alcorta. Approximately 40 students tried out for the team, but only 25 made it. Coach Imlay, baseball coach of 10 years, said that he believed the primary attributes of his players were commitment and skill. This skill was a combination of talent and a great deal of work, practicing every non-game day. Although the team lacked speed because of inexperience they excelled in hitting and pitching. With this in mind their goal was to win the Lion Tournament and the CIF championships.

We Can Do Anything!

The Junior Varsity Baseball Team faced a successful year with the help of Coach Blevins. Blevins felt the team's strongest abilities were the power hitters, Darrin James, and Steve Aguilar. The starting pitchers included Randy Hennis and Chris Leong.

The team's toughest opponents were Kearny and Madison, but Blevins felt that "with enough practice and open communication, the team can accomplish anything!"

Tennis

Tennis Aces!

The tennis team hoped to be tough contenders for the Eastern League Championship. The team was led by captains Maury Liewerant and Danny Braun. Other returning members were Joel Sheposh, Dan Gallagher and Dave Ewers. They were full of spirit and this gave them a big advantage over their opponents. As they played together, they grew in ability and in friendship.

The key to their success was skill, mental toughness and concentration. With the help of Coach Leslie, tennis coach of three years, these Patriots made a successful season.

Off and Running!

This year the Patriot Girls' track team was in pursuit of the Eastern League Championship. This high ranking group of athletes had great spirit and the will to win. The top players were Eileen Dyer, Robin Davis, Dee Coons, Michelle Myrick, Lolanda White, Melody Dunham, Twantwanette Henderson and Ruth Saiz. The girls also had participants in the Jack-in-the-box Invitational Meet. The strength of the team, as a whole, was to be admired by all schools.

The team's goals consisted of persisting to the best of their ability, making the year a growing and learning experience; but, most of all, to have fun. Their coach, Janet Lowry, has been the Girls track coach for 9 years and looks forward to another great season.

Flying Females

"Greatness comes to those who dare to strain, dare to sweat, and dare to gain." This quote best described our 1982 Track Team. With the outstanding coaching of E. Runge and D. Dolbey, the varsity and junior varsity track team had a successful and rewarding season. With such outstanding Varsity members as sprinters Gary Robinson and Maurice Payne; Tony Reaux in the long jump; along with Scott Jamieson and Howard Teaze as distant runners, the team went far.

Team spirit daily practice, and dedication all helped to make it work. Although approximately 80 students try out for the team, only 60 varsity and junior varsity made it.

Some of the outstanding J.V. players were James Brooks, Louis McLaurin, James Gregory, Mike Evans and Lonze Townsend. With these Patriots returning again next year, our team should be as excellent as it was in '82!

Golf

Driving Forward

The Patrick Henry golf team was still going strong since it first started in 1968. The man behind this year's team was Coach Wendall Montague, who has been coaching the team since it first started. The team captain was returning senior Ron Cantor. Senior, Jamie Katomski, and junior, Steve Barker were also returning lettermen.

The team consisted of 12 students. Their goal was to make it to the CIF finals. At the beginning of the season their goal looked like it could be achieved. "We have the potential as well as the spirit to go all the way," exclaimed Coach Montague. To do this they had to compete against Crawford, La Jolla, Coronado and Mt. Carmel. They felt these teams would give them some tough competition.

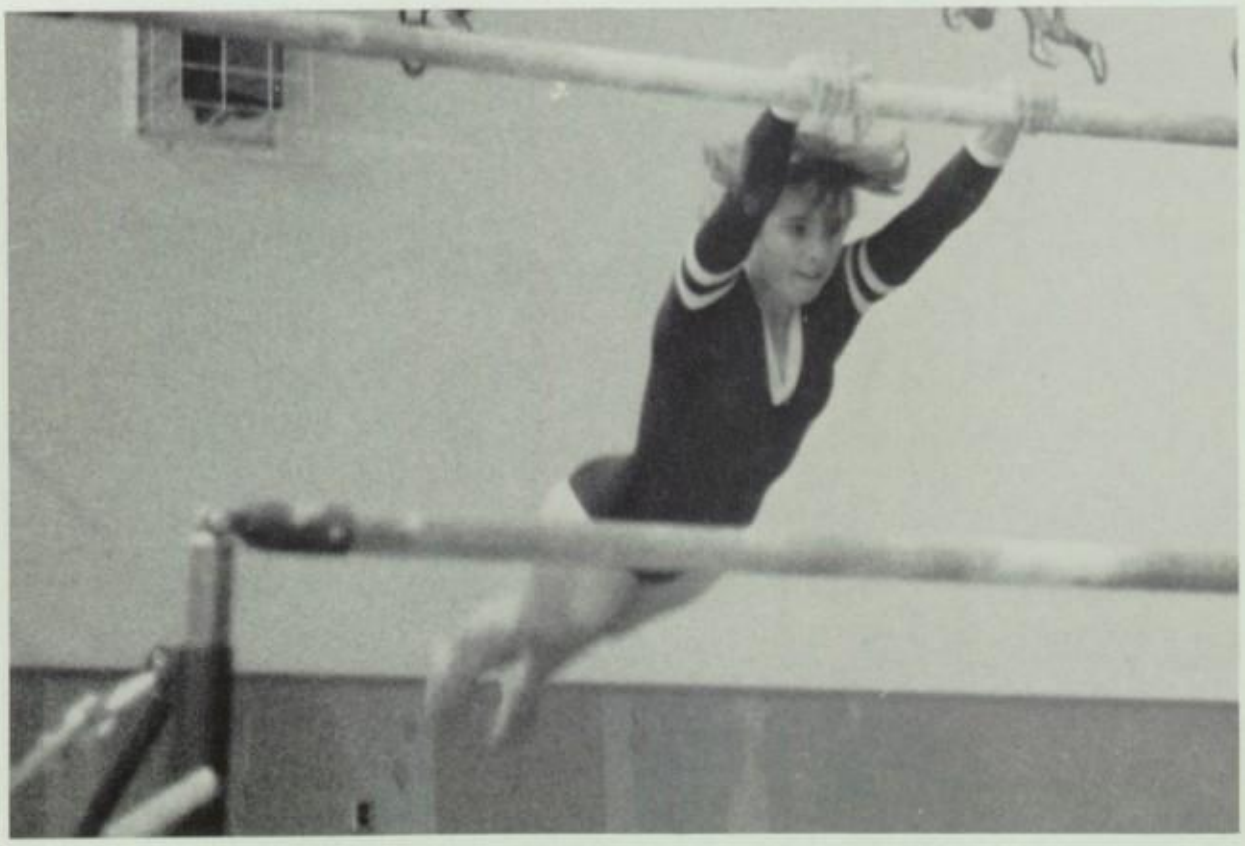
Gymnastics



City Champs Again

This years gymnastic season was the best ever! With so many returning, enthusiastic gymnasts, they had a head start on a positive, winning attitude. Once again, they took first in the city with a final record of six wins and no losses. This was the sixth year in a row to be all city champions.

The year was also filled with many fun-filled social activities for the girls. They would have kidnap breakfast's, pizza after meets, pigouts at Ro's house, the annual sun, swim and eat party; and, of course, the end of the season awards' banquet.

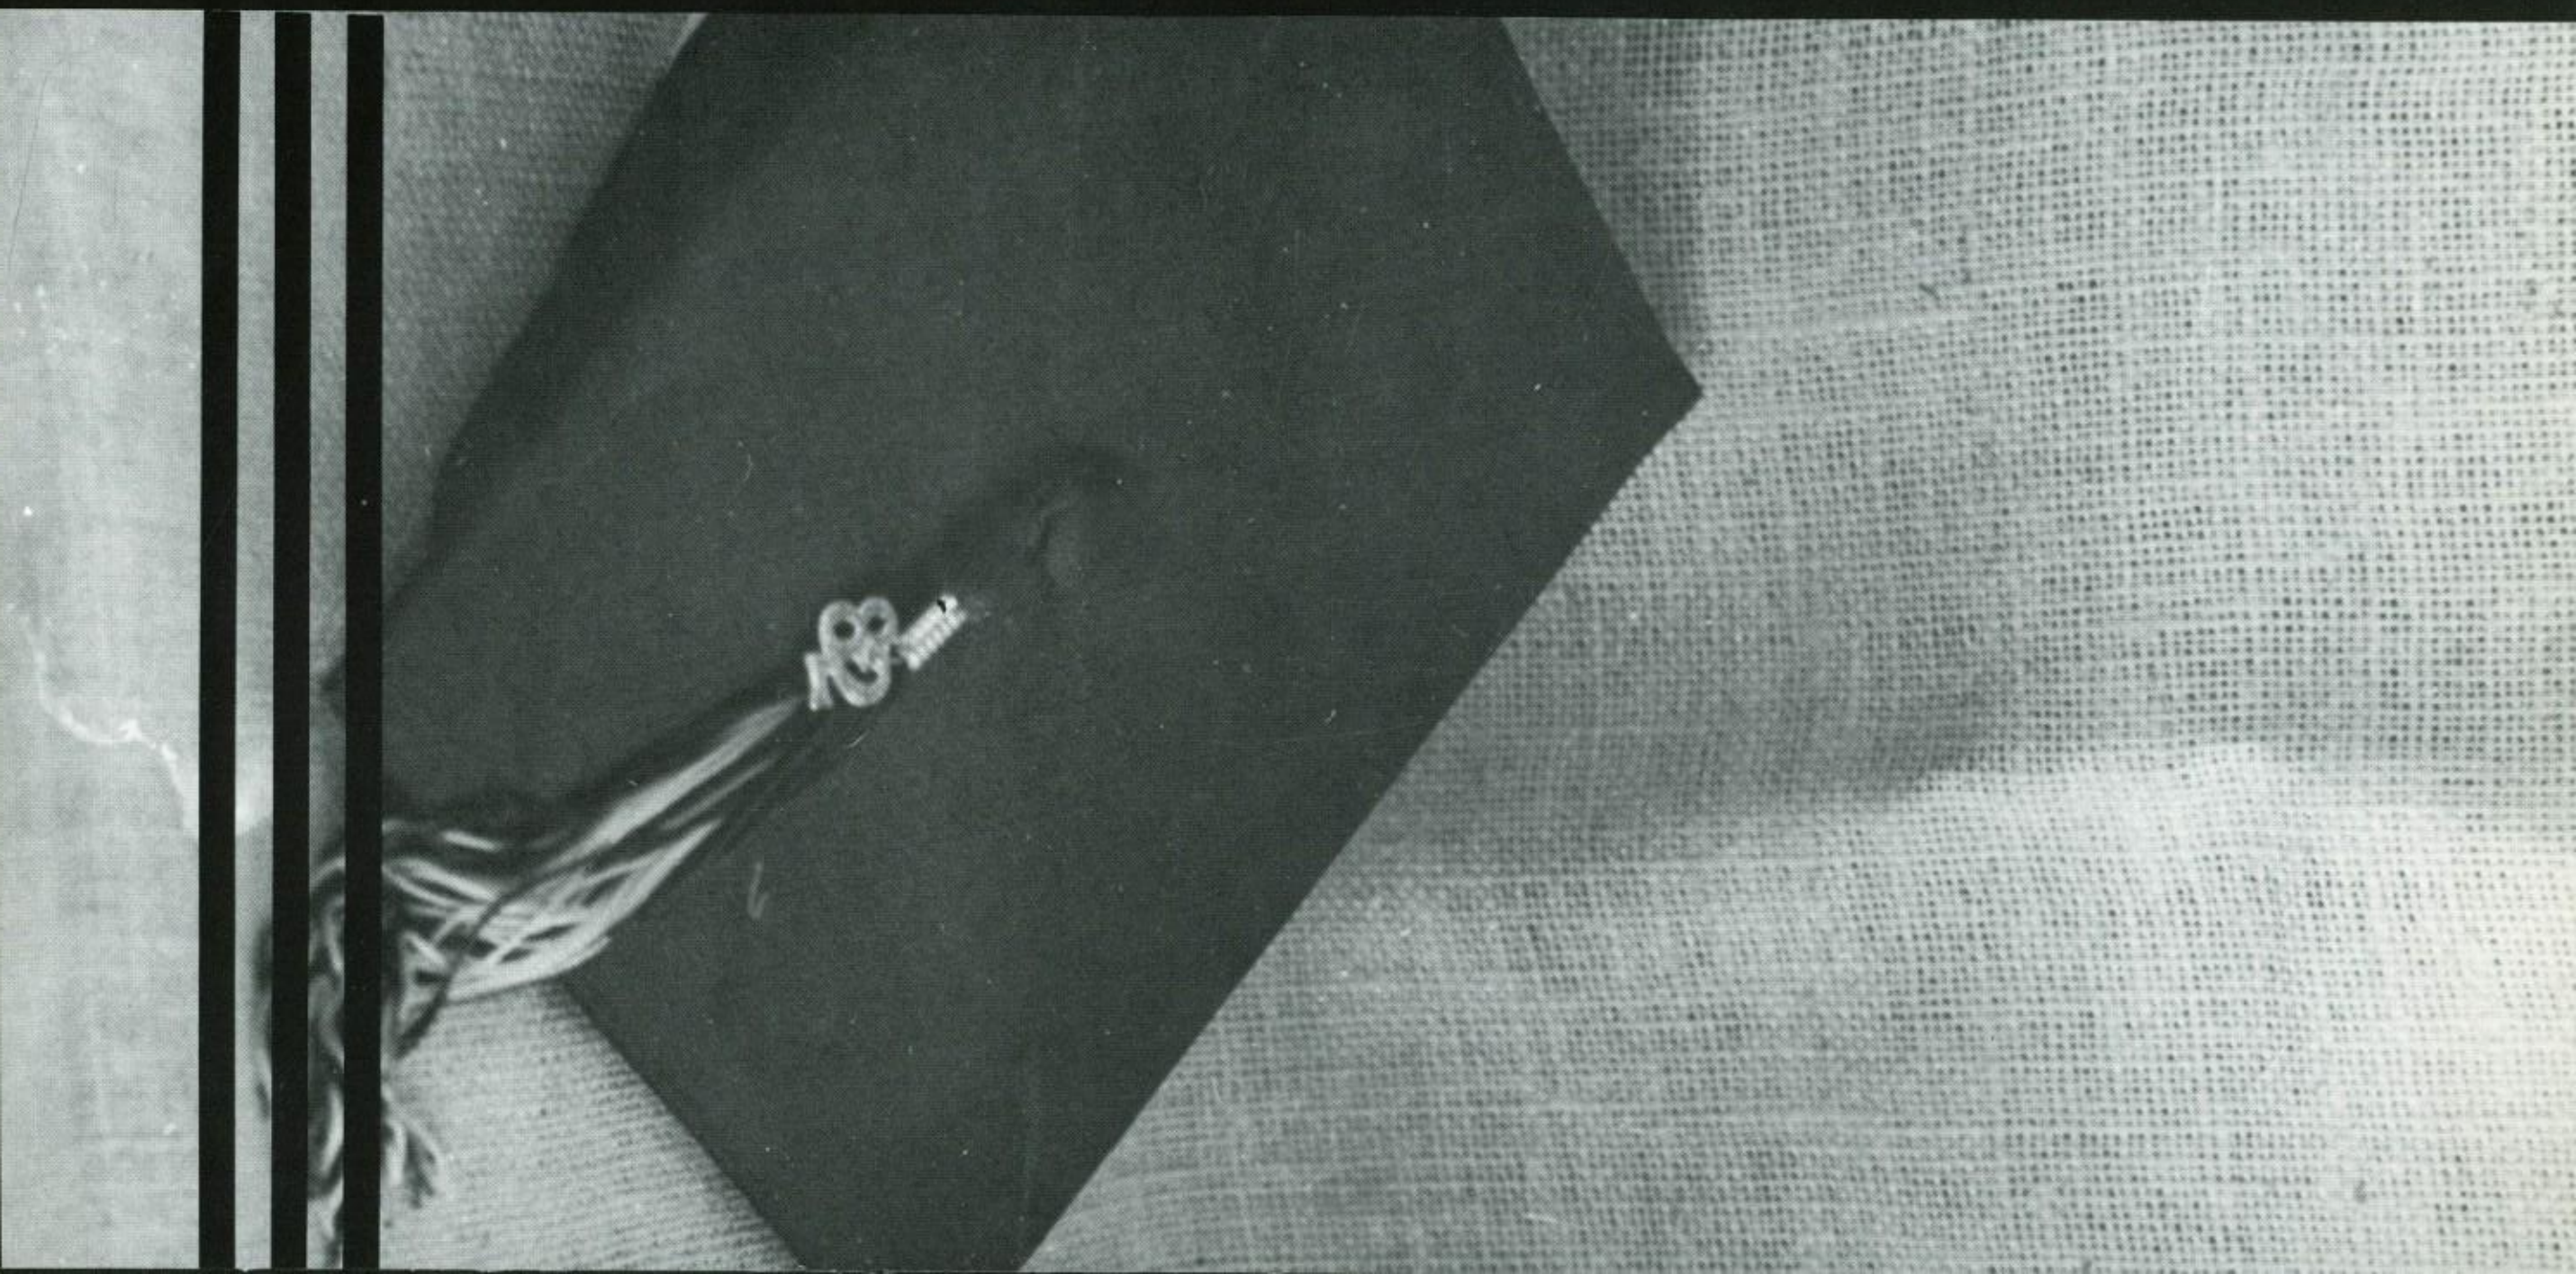
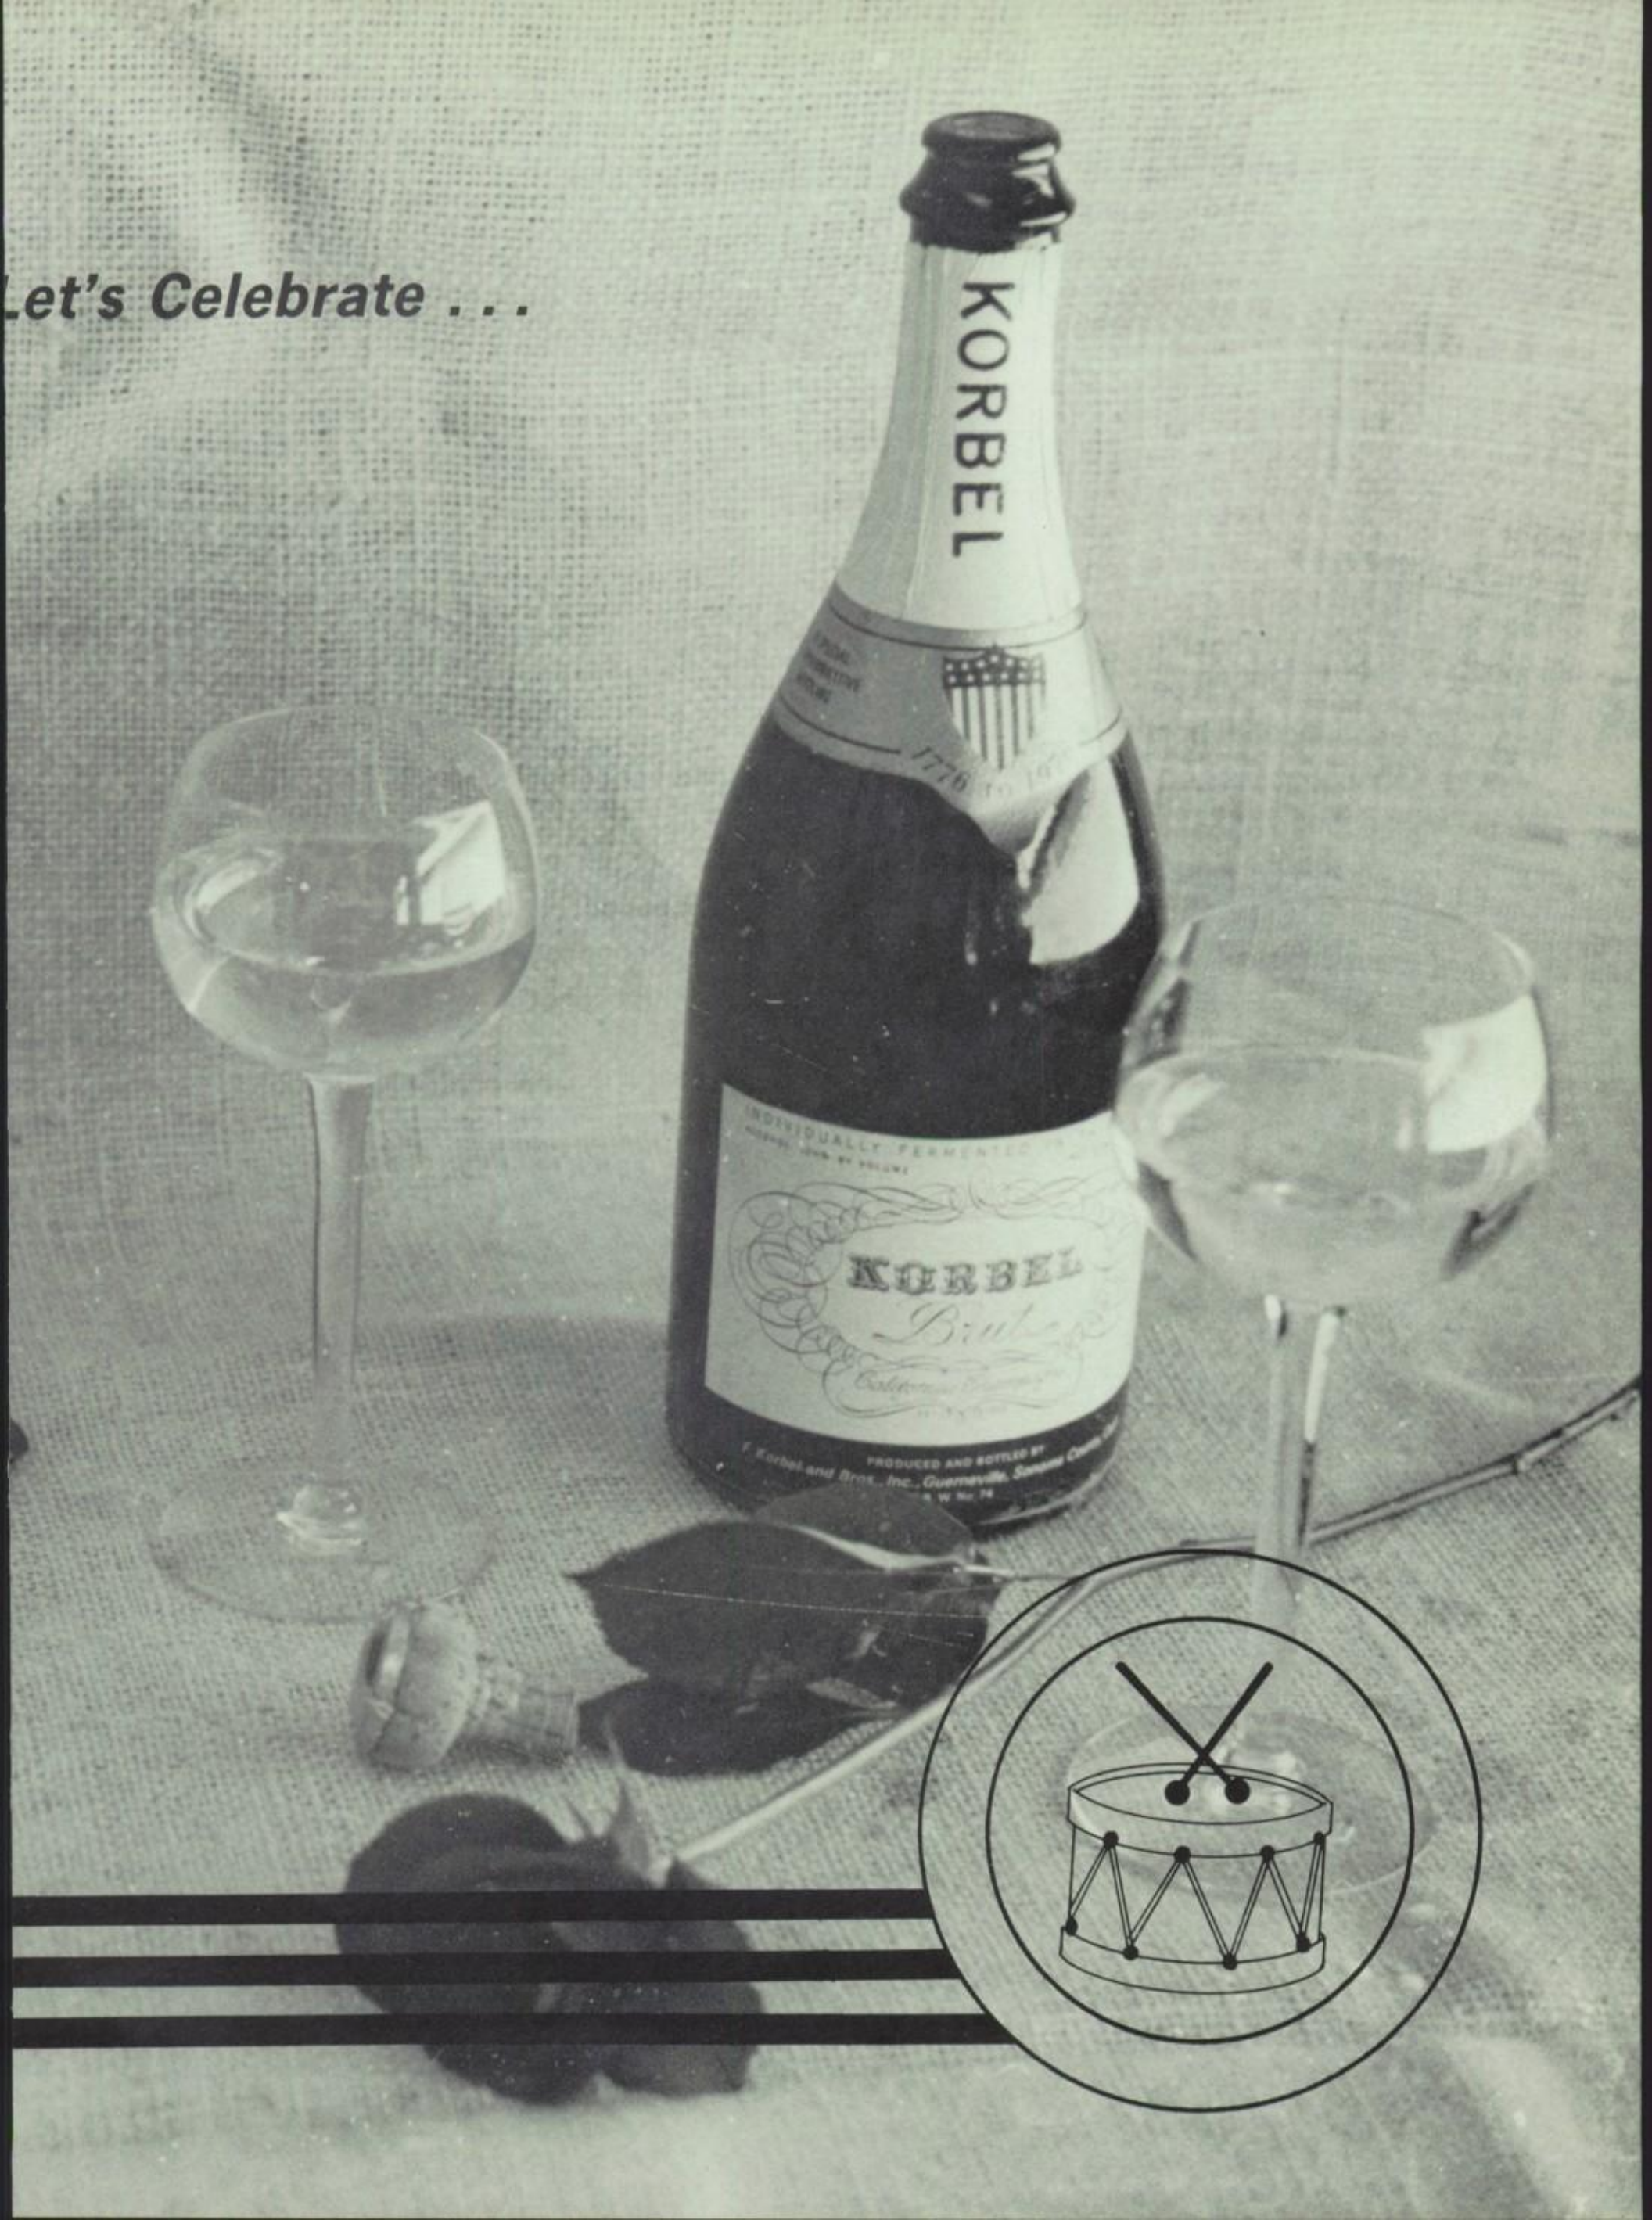
SENIORS



Let's Celebrate . . .



Senior Class Officers

The graduates of the Class of 82 characterize humanity's diversity — "Hearing the beat of a different drummer." Separately, seniors developed skills that shaped their personalities. Class members excelled in many areas of scholastics, music and athletics. Together the class combined all these qualities and provided enthusiasm, creativity, and dedication in making memorable senior activities. Indeed, the accomplishments each individual made at Patrick Henry will enable varying goals and opportunities to be fulfilled, "however measured or far away."

Graduation — most emotional day (the day you've always waited for), remembering the times like these we have shared with friends during our high school years. Not wanting to say good-bye for fear that it will be the last time, but needing and wanting to grow up. Rainy Day People

"The process of water falling in drops condensed from the moisture in the atmosphere," rain, was something both loved and loathed by the students at Patrick Henry High.

Many different factors influenced the opinions of the students about the arrival of the rainy season, ranging from not wanting to mess up ones hair to ski fever.

Those in favor of the rain were predominantly skiers (snow mind you, not water), those with the brand new winter wardrobe, the soccer players (who relish the mud), and those who love puddles and wetness in general.

On the other hand many people despised the clammy winter dampness. Of these were the beach bums who found it hard to keep their skin brown during a downpour, all the owners of shiny clean cars or expensive leather boots, and people who simply don't enjoy cold noses.

Whether one loves or hates rain, it is destined to fall for eternity. One word of advice to those who dislike rain; either get to like it or get galoshes!

Thank God It's Friday!

It is probably rather safe to say that Friday is the majority of Patrick Henry's students' favorite day. Although Friday is often a popular day for tests and for turning in assignments, at least the teachers don't have to be faced until Monday! However, from the time the bell rings and the books are thrown under the bed until late Sunday night what do Patrick Henry students do?

There are probably as many different answers to this question as there are students here. Yet, there are a variety of activities that a great deal of students commonly enjoy. Many students choose to participate in school related events such as football games, dances and other sporting events; whereas, many students choose to get as far away from school as possible. Some retreat to the mountains to ski or hike, some head for the desert to go off-roading and to ride motorcycles or three-wheelers, and some slip south of the border to sip forbidden Margaritas and gobble succulent lobsters. Finally, lots of Henry students entertain themselves within San Diego's city limits by going to parties, concerts, the beach, and the list goes on! To sum it all up, the people at Patrick Henry have a thousand different ways of doing the same thing: having FUN!

"Hey, let's go to yogurt," was a popular phrase amongst PH students. A new fad called "frozen yogurt" swept the campus this year. Students travelled as far as three miles to indulge in this nourishing and tasty food. Many people began to turn their noses down to regular yogurt because frozen has such irresistable flavors as piña colada, mocha, strawberry, chocolate mint, and the all-time favorite, peanut butter. A small size mocha yogurt with a helping of carob coated peanuts on top was often served as a delicacy for lunch.

Yogurt became an addiction. Many students went to yogurt three times a week during lunches, and of course, before football games, after basketball games and in between! But, for most, yogurt was a well enjoyed treat. When debating on a refreshing snack, remember, yogurt is "good and good for you!"

Concert of the Year

It all started around 9 p.m., Thursday, when a caravan of cars and trucks filled into the San Diego Jack Murphy Stadium. By midnight ten thousand vehicles were in the parking lot, stereos blaring, as one of the biggest tailgate parties had just begun. What were these people doing here in the middle of the night? Probably awaiting the largest concert in the history of San Diego — The Rolling Stones.

At exactly 3 p.m. George Thorogood and the Destroyers came on the stage playing an hour set. An hour wait followed Thorogood and then the J. Geils Band took the stage. After J. Geils it was time for what everyone had been waiting for: The Rolling Stones.

Dusk was setting in on the stadium and the fans were growing restless. But then, without warning, the entire crowd of about 70,000 were on their feet as the familiar beat to "Under My Thumb" could be heard. Fans cheered for the next 15 minutes as Mick Jagger carried on his famous singing and dancing antics through the songs "Black Limousine," "Neighbors," and an oldie, "Time is on My Side." To many, Jagger appeared to be a miniature figure against a tower of speakers as the seats were so far away from the stage. But just being there, hearing the Stones live was enough for most fans.

The fans themselves were made up of mostly teenagers, some who weren't even born when the Stones were formed. Others were middle aged, who had been fans of the group from the start. Among these people were many high school students. City school officials said an estimated 25% of the districts 24,000 students enrolled in San Diego high schools were absent October 7, many of them attending the concert. No doubt many Partick Henry students missed school that day; for most of them it was well worth it. The Rolling Stones Concert was a great show. It was history. Something that might never happen again and something that won't be forgotten for a long time.

Outstanding:

Reed Gershwind, a senior at Patrick Henry, is very dedicated to water sports both in and out of school. Here at Henry he is Co-Captain of Water Polo and one of the three top players. Last year he made All CIF 3rd team and was named Most Valuable of the Henry team. He is also very active in AAU Water polo and the AAU Heartland Swim Team (along with swimming at PH.) But these few credentials don't even begin to tell of the more than very special qualities that Reed possesses. There is something about him that makes him totally different, and that is the fact that he is deaf. This is nothing to be stunned by because he has had this handicap all his life so it isn't really a great setback for him. How much can he actually hear? Without the use of a hearing aide, he can't hear anything, but with one he can hear the tone of someone's voice and loud noises. Reed communicates by reading lips when talking to somebody.

This past summer, Reed went to the Deaf Olympics. After two weeks of training in North Carolina, he traveled to Cologne, West Germany where he and several other deaf youths from various countries competed in such sports as track & field, swimming, water polo, and more. There, Reed had a very profitable week of competitive swimming. He returned home with five gold medals, one silver, and one bronze! While winning the golds, he also set two World Deaf records in the 400 IM and the 100 freestyle. The two relay teams he competed on were the source of two golds and two more records. "I met a lot of people and learned many things," is basically what he had to say about his experience.

Of course Reed doesn't just swim his life away, he also loves to ski every winter and party every weekend like most high school students. When asked if being deaf made him strive to be better than average, Reed simply replied, "Not really. I just have to work harder to keep up with other students."

Take a "JOURNEY" through the clouds and you'll find the "RAINBOW"!

What is a surfer?

The American Heritage Dictionary of the English language defines surfing as, "A sport in which one attempts to ride a surfboard toward the beach." Although the sport still has this main goal in mind, the art of surfing has become much more demanding. Getting "tubed" is a must and a "360" makes a surfers day. Being at the beach before even the seagulls arrive is a sign of pure "naziism". Another sign of an experienced surfer is mastering the art of taking off ones wetsuit — all the while holding a towel around the waist. Before a surfer "goes out", conditions must be perfect; glassy water, an offshore wind and 3 foot backs are essential.

At one time a person could define a surfer as someone with long blond hair and barefeet. However, the more popular style now is the short "crewcut" look which is definitely more practical. Although one still sees the long blond hair whipping in the wind while "catching waves"; the new trend is rapidly catching on.

Probably the highest honor that a high school Senior can be bestowed with, is that of Valedictorian. The title of Valedictorian is the greatest reward possible for a continuing 4.00 grade point average between 10th and 12th grades, inclusive. Many of the 13 Valedictorians that proudly represented Patrick Henry had been receiving straight A's since junior high school and have been working towards this goal for years. These scholars tremendously deserve this reward, so, congratulations from 1981-82 Encounter XIV Staff.

Most Outstanding Patriots of the Year

"Patriot of the Year" is a mere title given to these 16 students, but it does not fully express how hard each of them has worked in order to be awarded this honor. They were chosen on their involvement in both school and community activities throughout their 3 years at Patrick Henry. To be considered for this honor, each student first had to be nominated, then was required to submit a resume which was judged by certain members of the administration. Even though all of them have accomplished and contributed a great deal, the Patriots who were above average are Michael Rinehart and Elizabeth Busby. The Encounter XIV Staff would like to express their pride in these two outstanding individuals, and offer their congratulations to all sixteen.

Our Rising Juniors

The hard working, creative Junior Class Officers undertook many tasks this year ranging from selling mistletoe at Christmas time to selling baked goods after school. Their contributions were all for one goal, to make the eighty-one, eighty-two school year for the Junior class both fun-filled and memorable. President Harriet Wingard and Vice-President Melissa Oppenheimer were faithfully aided by Treasurer Marc Bryman and Secretary Debbie Friedman. The four of them worked well together and helped make the Class of '83's activities a huge success.

Junior Class Advisor

Hundreds of sophomores and journalists this year had the unique experience of having Bob Litchfield for a teacher. For years, Mr. Litchfield has been a favorite for many. Sophomores regarded him as the teacher who taught Shakespeare, close reading, and the five paragraph essay. The Patriot Press staff viewed him as a negotiator in times of deadlines. Most of the students saw him as a teacher you could joke with and whose lawn served as a campground Besides teaching Humanities, Mr. Litchfield was in charge of intramural athletics and the Junior Class. His spirit and enthusiasm contibuted much to each of these duties. He has spent most of his summers protecting the public from feared grizzly bears at Glacier National Park. In order to obtain a true understanding of Mr. Litchfield, a student should either take one of his classes or visit his uniquely decorated room, 113 and talk to him about the symbolism in MACBETH or hiking in Switzerland.

Patrick Henry's Unknown Eater

Olympic-Bound Skater

Jeff Smith has been skating for approximately nine years. He started skating in 1972. He started with group lessons just before his seventh birthday, and progressed enough to start taking private lessons within a few months. Jeff commented, "The first time I went skating was just for fun, and I had no idea that I would become so involved." Since he began skating, he has had two different professional ice skating teachers Claude Sweet, and Chickie Swanson.

After he started taking private lessons, he was told that he needed to skate more. With his schedule at school it was not possible for him to skate after school, therefore he started skating at five in the morning.

In ice skating there are nine tests: a preliminary, first, second, third, etc. After a person has passed all nine tests, they obtain a "gold medal" in single skating. Out of the nine tests, Jeff has passed seven. He has skated in about thirty-five competitions and has placed in about twenty-five of them. He hopes one day to make it to the National level and place, thus qualifying for the World Olympic Team.

A Brazilian AFS Student

Among the many clubs and organizations on campus, the AFS (American Field Service) is one of the most challenging. Annually its popularity increases, bringing to Henry, a variety of students from such places as Germany, South America, and Sweden. Ana Mallet, one such student, thought it would be good to go abroad and see different kinds of life. A senior from Rio de Janeiro, school year 1981-82 will bring her fond memories of her host family, the Kotlers, Patrick Henry and the United States.

Although Ana is a Brazilian, she is very much like American teenagers. She enjoys listening to music by brazillian and American singers, including Paul Simon. Her interest in medicine and athletic abilities make physiolgy and P.E. her favorite classes. She has definite plans following high school, which includes medical school. Her goal is to become a doctor and practice in a small town in Brazil. Although Ana's stay in the United States will end with graduation in June, it has been an experience she will never forget.

Our Youngest Patriots

"Together", that's one of the adjectives that best described the Sophomore Class Cabinet, "Class of 84".

Starting out new and inexperienced can be very difficult. But thanks to people like President Bonnie Stenzler and her cabinet, the 1982 year rolled along very smoothly. Along with Pres. Stenzler, Vice President Jeff Green, Secretary Jennifer Berton, Treasurer, Jodi Meltzer and Representatives Alisa Ohri, Jenny Schuman and Stephanie Jenks, the Sophomores enjoyed a very memorable and successful year. It is hoped that the following years here at Henry are as productive and motivating as this past year has been.

Sophomore Class Advisor

Although he'd been through it before, Bob Shaugnessy still discovered some pleasant surprises this year as Sophomore Class Advisor. The English and Social Studies teacher, who filled similar duties for the classes of '76 and '79, was pleased to find more sophomores involved in class activities this year, He saw that, as one main responsibility of a class advisor. "We've definitely improved in that area," Shaugnessy said. "Hopefully, we can get still more students involved next year."

Mr. Shaugnessy said that in the past years most activities were restricted to the senior class, which left out a lot of students. However, that changed in 1981-82, with more sophomore and junior activities and thus more student involement. Of course, he thought this a significant step in the right direction. And with Bob Shaugnessy as advisor, the class of '84 seemed destined to take more of such steps before leaving Patrick Henry.

Sophomore Stuntmen

They jump off buildings, are hit by automobiles, set themselves on fire, and hang themselves from trees. Why? "For the fun and for the thrill." They are stuntmen and the lives they risk are their own.

Sophomores, Mike Evans and Anthony Gariano have been doing stunts for about four to six years. As ninth graders they jumped from the top off a fifty-two foot light tower into a 3×6×4 foam pad. "It's the adrenaline rush that makes it so great. So much adrenaline is pumping through your body, that it's a while before you stop jumping ten feet in the air yelling "I did it!", Anthony explained.

Both film their own stunt movies on a super 8 movie camera using a special effects and exciting action. Together they have made over thirty movies.

Stunts are not something that someone can just go out and do. It takes a lot of training. "If we don't feel right about a stunt, we won't hesitate to call it off." I'm proud to say that I have never been seriously hurt doing a stunt," Mike stated.

Changing Graduation Requirements

Each year at Patrick Henry, incoming sophomore students have had to adjust to the stricter-growing graduation requirements. Each year the graduation requirements become greater due to that Patrick Henry has not kept in step with the rest of the district's graduation requirements.

The newest change was the requirement to have three semesters of fine-arts. This change did not affect this year's seniors and juniors but did affect this year's sophomores and the incoming students. The credit requirements have remained the same, but the subject requirements have changed. These changes have had no sufficient change in the number of students graduating. Mr. H.G. Millstone, Patrick Henry counselor, commented that the school was thinking of increasing the forty credits needed to forty-two or forty-three credits and to make physical education mandatory only until tenth-grade. The only problem was if they increased the credits, students would have to take more subjects, which meant they would have to increase the staff.

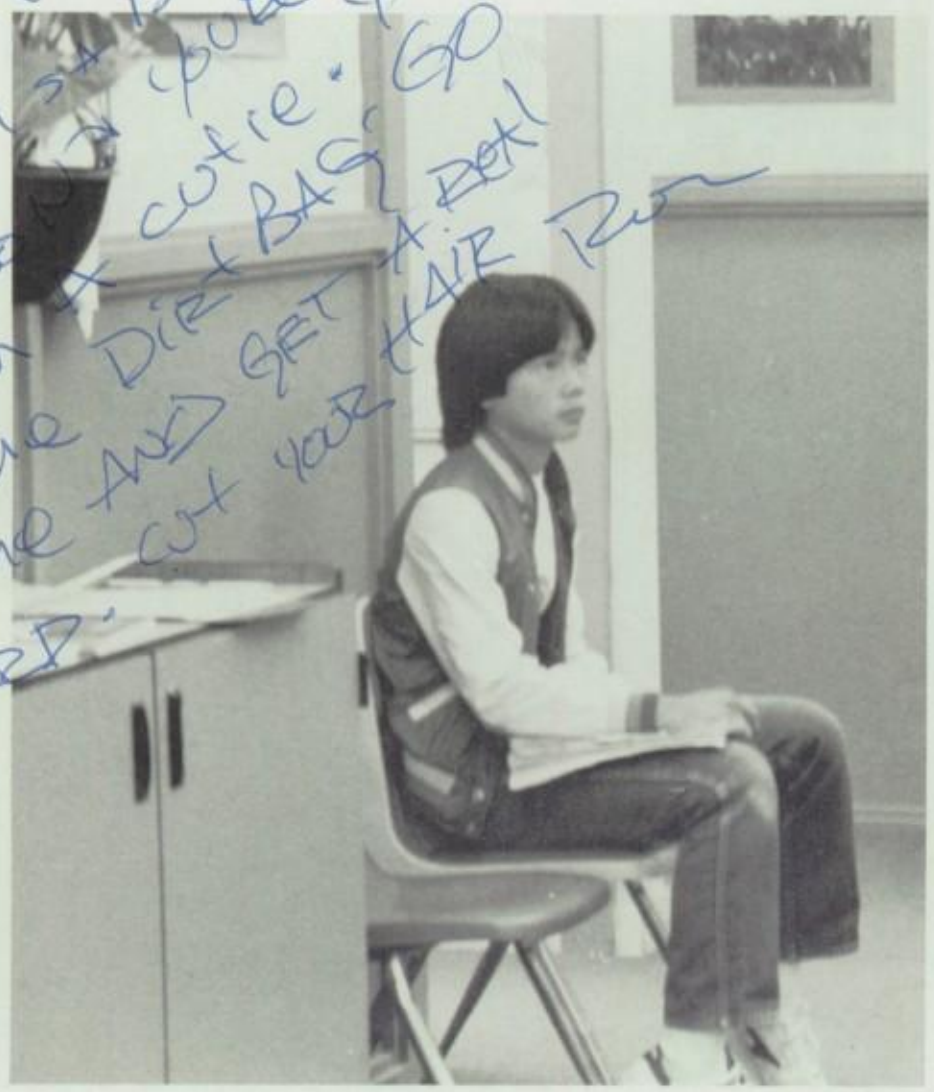
The outlook seemed to be that for the next few years, incoming students would have to adjust to the changing graduation requirements.

1984 College Opportunities

Many sophomores this year have to face problems which most of them are not even aware of. These problems affect those students who are planning or contemplating a college education. Because of inflation, college tuitions have skyrocketed. As of now, the prices are unbelieveably high, but in three years they may be inaffordable to many students.

Presently, a quality education is available to the California student for a lesser price if they choose to attend a state university, but this opportunity may not be offered in the future. Financial aid through scholarships will still be one option for the 1984 graduate, but according to Mr. Millstone, the scholarship opportunities will not increase at the same rate as the tuition fees. In fact, he feels that the financial aid given in 1984 to the college freshman will be even less than it is today, yet college tuition will be more. The reasons behind such a prediction are based on the recession which we are experiencing now, and the resulting cutbacks in state and federal government budgets. Overall, Mr. Millstone feels that in 1984 there will be fewer students attending the high-priced, prestigious schools, and a great number attending state colleges and universities.

Our New Patriots



This year, Patrick Henry has nearly 300 new Indochinese students from both Laos and Vietnam. Many of these students have fascinating backgrounds and are talented artists, writers, and poets. Here is a sample of some of their work.

Champa, the Flower of Laos

Oh Champas! When I sense your fragrance, a
thousand memories stir in my heart.
Your sweet scent reminds me of the garden
Of my father. And I recall all my dreams,
all my melancholy, and all my childhood joy.
Champas, you are for me the flower of my childhood.

Your perfume awakens in my delightful
memories.
When I inhale your fragrance I seem to recall in my heart
My beloved whom I have lost.
Champas, the most beautiful flower of Laos,
you are for me the flower of my love.

A Letter for my Old Friend in Vietnam

B. Friend,

Long since, I have thought, time would easily make people forget everything about their pasts. But over a year, my dismalness has gotten bigger and stronger every day.

As you know, our Vietnamese people easily get along with this life. Language, jobs, and customs are really new and much different than our own way. But that is not a problem we could not solve out. Our history has proved our Vietnamese people, with their two hands could do and do anything. So, life is not hard for me to get along with.

I did read your five page letter. You wrote, and reminded, and got me back into my childhood, my past. Over a year has past far from my country, far from the animated boulevards of Saigon capitol-city, far from the rich land, the lovely Mekong river along the South, and an immense ocean.

In brief, we have much enthusiastic help and were treated with kind attention from local people. But, that much favor could never recover lost things of a people in exile as me, and millions of other Vietnamese.

You know that a lot of nights by the window in my bedroom, I sit, awake all night. The night is so long, but it is still not enough for me, and for my thoughts. In those nights homesickness comes and stays inside me. I miss Vietnam! I miss our nice school where we took a same class, same teacher, and same books. I also remember our natural smile everyday in school, every music performance at night in school, and every soccer game you and I saw with eachother. That was a nice day, ha! All is over now.

Remember the words you told me before I left Vietnam, it is reality now. Far from our fatherland, I start to recognize the patriotism is so great and respectable. Do you remember that, one day our teacher in literature class had taught us a popular poem. It said that; "Night after night standing at the door, look back to our native land, how hurt we are?" . . . In that day, we laughed at him and thought that he lied and talked out of truth. But now, I realize that poem really got into my heart. The darkness outside the window seems to tell me that was true. That beloved land is unforgettable inside me as the night and darkness comes day after day and never disappears. Ironically, I find that Vietnam is still a part of my life.

Write to you with my deep understanding
Friendly,
Tran Tan Tai

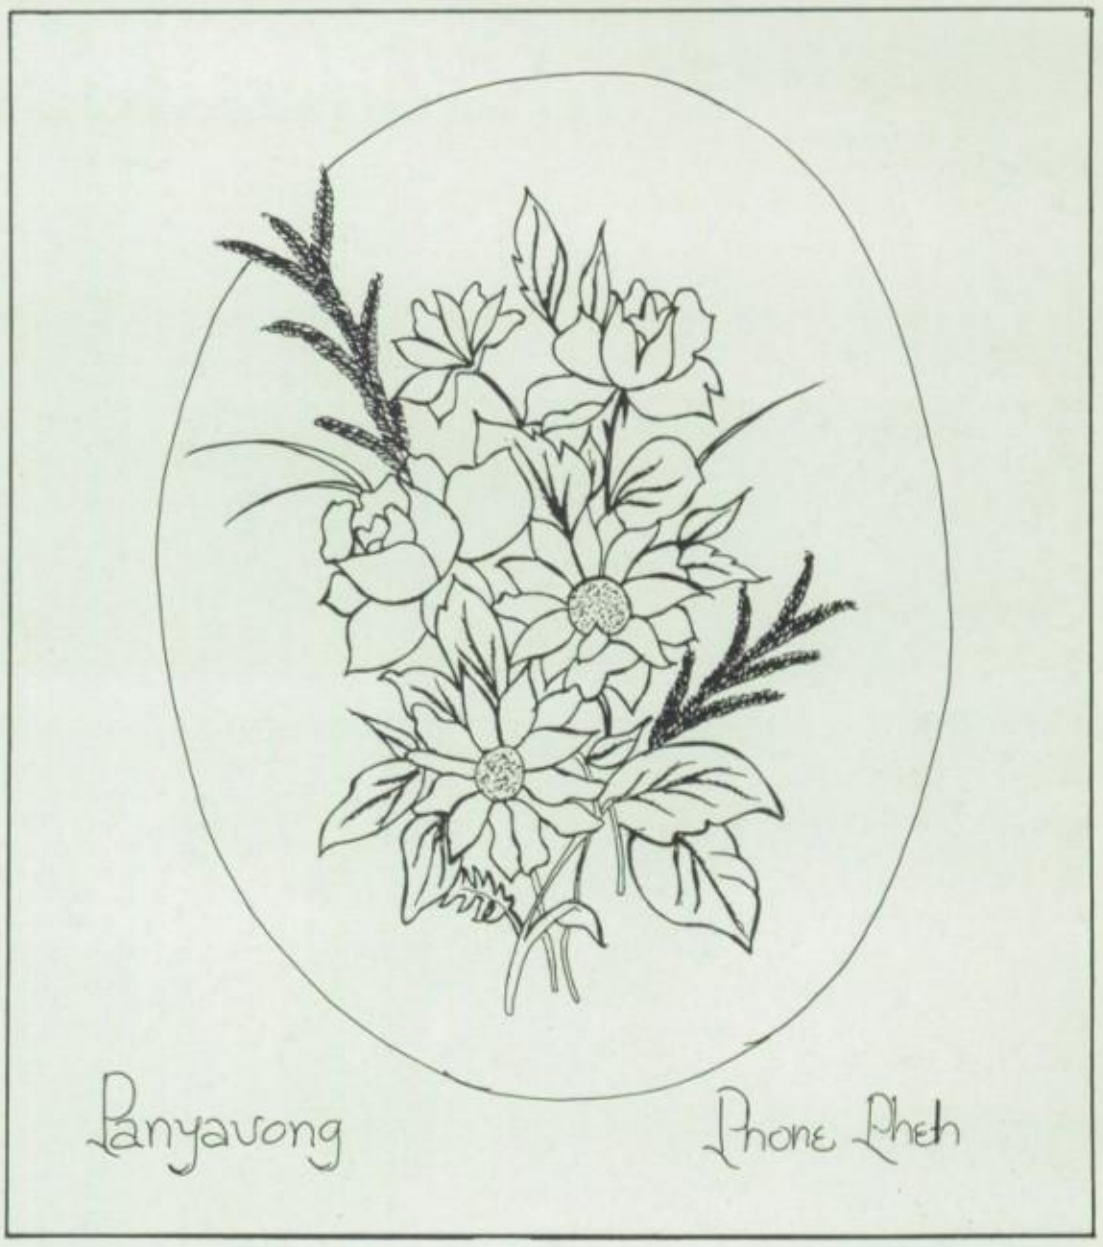
My Story



When I was living in my country, in Laos, we were a happy family because at my house we had a shop that was open every morning from 7:30 a.m. to 6:30 p.m.

I enjoyed very much the customers that came into our shop. Every month my father went to buy goods and merchandise from another country, but since the communists took over our country, everything had to be changed to their government's laws. Then we had to quit doing trade because the communists didn't like us to sell something that makes profit from someone else. Another problem was that we couldn't make a living in Laos because my father was a soldier for the Americans for about 17 years. The communists said they would punish those who had been soldiers for the Americans, like order them to work hard almost all day and do heavy things. They would order them to build a bridge across the mountains and they wouldn't pay them any money. Now my story begins:

It was Sunday morning and my parents make a plan to cross the river to Thailand to make a new life. They have been planning for a week but they didn't tell my brothers and me because it was their secret. On that morning I was playing with my friends in the market. After a while my mom ran up to me and said, "Oh! son, let's go with mom to a party."

"I don't want to go," I said. "You have to come son," my mom replied. Finally, I followed my mom to the house. When my father saw me come to the house he said, "Let's take your clothes and other things." I was so surprised that my father told me to do that. I still didn't understand what was going on in my family. I didn't ask my parents, all I asked was, "Where are we going?"

"Hurry, don't waste time, son," my father answered. Then all my family went to the parking lot. Before we could get into a taxi my father had to pay double fare to the driver. While we were riding in the taxi my mother told me that we were going to escape to Thailand. "What about our house and other things," I asked my mom. But she didn't answer my question. I looked at her face; she looked sad and all my family looked so sad.

At the shore my father was looking for a boat and making sure that the communist soldiers didn't follow us. My father had told the owner of boat to pick us up. After the boat arrived we thought that he would bring us good news, but he certainly brought us bad news. He said, "Last night the communists soldiers killed ten people right there we were then."

He asked my father if we wanted to cross the Mekong river right then of wait for a safer time. My father decided right away, "I want to go now," he answered. He didn't want to go back to work for the communists. He would rather die, if he had too! Finally the owner of the boat agreed and he would do what my father said. Then we got in a boat; we were very scared and sad. That day was our worse day. We were very scared.

We were almost in Thailand and we didn't hear anything such as a gunshot. We were very quiet when we were on the boat. Finally, my father spoke up, "We're all safe now." We all were happy to come to a new life in Thailand. We all said goodbye to the man who brought us to Thailand, the man who saved our lives.

After we said goodbye to the man who had saved our lives, we went to the refugee camp. When we were living in Thailand, the officers of the Thai people kept us in the refugee camp just as if we were in jail. We couldn't go out, but the Thai people could come into the camp. Sometimes when the Thai people came into the camp, they didn't go out because they came to murder us secretly. Sometimes we would catch a robber that came to steal something from us. We would take him to the police. After we left the police and the robber alone, the robber would give money to the police and the police would let him go. That's the way life is in Thailand.

We were very lucky that my family was interviewed by an American officer to come to the United States. Finally my family's name came up to go to the United States. We were very happy to come to make a new life, but the first day we arrived in the United States we were very sad because we didn't speak English. However, now I can speak English better that the first day I arrived. Now I like to stay in the United States forever because I found out that there is freedom. Now I attend at Patrick Henry High School. I want to thank everyone who helped us make a new life. Especially the American Government. And the American People who saved our lives.

En Garde!

Everyone has heard of the Three Musketeers and their fencing matches and many of us have played out their antics in our imaginations. Some students took advantage of the new Fencing Club to live out some of their fantasies along with learning the intellectual art of fencing. In this "fast moving chess game" of sorts the individual must out-guess his or her opponent while planning an attack. The founder of the club, Stuart Forman, found an advisor, Mrs. Herron and a fencing coach, Lynne Antonelli, to help this group of about 30 beginners. Through their weekly practices, they progressed to compete in tournaments. This group will probably continue its success due to the wide interest and variety of students involved.

Dancin' Away

The Dance Production class, led by Sherrie Dierker was made up of 25 of Patrick Henry's finest Dance students. These dancers were chosen from approximately 52 who auditioned for the class. Two previous members of Dance Production created a routine which all of the people auditioning had to perform. Those who were called back then had to create an original dance routine and perform it. The main goal of the class was to work on dances to be presented at their annual Dance Production. These dances could consist of tap, jazz, and ballet combinations. The students choreographed their own dances, and each one participated in at least four. The work was more intensified because the girls only had 3 months to prepare rather than a full year as they have had in the past.

Lacrosse: Action Packed

Even though their record didn't show it, the Lacrosse Club did succeed by having fun and learning the exciting game of lacrosse. In this fast moving game that resembles soccer and hockey, the Lacrosse Club played in 10 games against schools throughout San Diego. They did have a more successful year than in past seasons and support for the team increased. The team was led by Neil O'Keefe, a third year lacrosse player.

Outdoor Fun

"If it's snowing we're going," was the motto of the Patrick Henry Ski Club. With some 50 members, the club held many successful trips, from the powdered slopes of Brianhead, Utah to the popular Snow Summit. Carol Valenta and Peter Psichogios were in charge of the fund raisers which included a wet car wash. The club members would like to thank advisor, Tony Marino, for the time and effort he put in to make the 1981-82 Ski Club possible.

Picture this: you are standing atop a ridge which overlooks a beautiful waterfall splashing into a clear blue lake. This is what the Yosemite Club is all about; learning about and appreciating beauty in nature. With guidance from Don Shaffer and park rangers, students experienced a week of magnificent Yosemite National Park and even got a chance to cross country ski.

Communication

Brings Us All Together

The Patriot Press continued the unique tradition of being run solely by the students, under the direction of editors-in-chief Tami Weintraub and Mike Foley, and advisors, Bob Litchfield and Bob Shaughnessy (now needlepointing at the Hill Haven Retirement Home). The paper secured top honors at the 1982 County High School Write-Offs. The staff suffered existential crisis of sorts: the fear of flying Exacto knives and bruises fightinf for a spot at a light table. Despite this, it all seemed worthwhile.

Press Survives 1981-1982

The journalism staff gained much fame and respect for their controversial editorials, illustrious features, and explicit sports coverage. Blessed with talent, the staff leaves its mark: Old papers never die; the news print just rubs off.

Echoes Staff: Creative In Diversity

Among the many student publications, the literary magazine, Echoes, stood out. Echoes exemplified the diversity of Patrick Henry students. All year, students submitted poems, photos, artwork, and short stories hoping they would be accepted. The magazine was published during the school year and sold to students for a low price. Most agreed on the excellence of quality. The staff was proud of their accomplishment.

Speech Team Aims for San Francisco

If a student was stopped in the halls of Henry and asked what the Speech Team did, chances are he couldn't give an answer. The stereotype existing in most students' minds was one of a person who carried a briefcase and made speeches about democracy. The truth was there were at least ten major speech events, plus others, ranging from humorous interpretation to Lincoln-Douglas style debate. Students specializing in these events competed at various levels against high school students throughout Southern California, with meets at UCLA, and Fullerton State. With the aid of Mr. Johnson and Seniors Alison Caplan and David Rozansky, the Speech Team hoped to send members to the 1981-82 National Forensics Tournament in San Francisco.

K.P.H.S. Has It All On Film with The Patriot Report

With their studio finally finished, the 1981-82 CCTV Class put out a year of fine productions. By expanding their Patriot Report and filming many specials for the Athletic Department, they produced more shows than ever. Despite extensive budget cuts, KPHS, under the direction of Larry Trouba, provided excellent coverage of the events and happenings at Patrick Henry.

Encounter Keeps Pace

The Encounter Staff XIV hoped to stress what we thought made Patrick Henry special: diversity. That diversity, found throughout school, exemplified the Annual Staff. With a new advisor, Mrs. Stewart, and Editor Liz Busby, we strove to produce an Annual unlike any before at Patrick Henry.

4,000 hours! That's how much time the 29 students spent putting together the largest high school annual in San Diego, Encounter XIV. No one realized what went into producing an annual until they worked on the staff. With only five veterans, it was a challenge to schedule photos, design layouts, and write copy, to meet those deadlines. When the final product was published, the staff hoped it would be appreciated by the students of Henry and the estimated 30,000 others who would look through and read the Encounter XIV.

Music Comes in many forms

New Wave, Punk, Rockabilly, Reggae, a sampling of forms of 80's popular music. While this music prospered, so did names such as Bach, Beethoven, and Schubert, especially in the minds of the 35 students in P.H.'s Orchestra. While these students enjoy today's "popular" music, they found satisfaction in various forms of orchestral music. The orchestra, was considered one of the finest in California. They competed in the prestigious Six Flags Music Festival at Magic Mountain under the direction of Mr. Torns. Overall the orchestra had a very successful year.

Band Jazzes Way to Reno

Webster's Dictionary describes "jazz" as, "American music developed especially from ragtime and blues . . . often with special melodic features peculiar to the individual interpretation of the player." Every Tuesday night, the Jazz Band, a group of about 20 talented musicians, gathered to practice and explore the jazz music that evolved in America. This year's jazz band was led by an all junior sax section headed by Greg Terrell. The trumpet section was led by Jeff Eishen with trombones led by Libby Cook. The Jazz Band went to Reno, Nevada for a 3-day Jazz competition. This was the 2nd year that the Jazz Band was led by Mr. Torns. His devotion and hard work was appreciated by all.

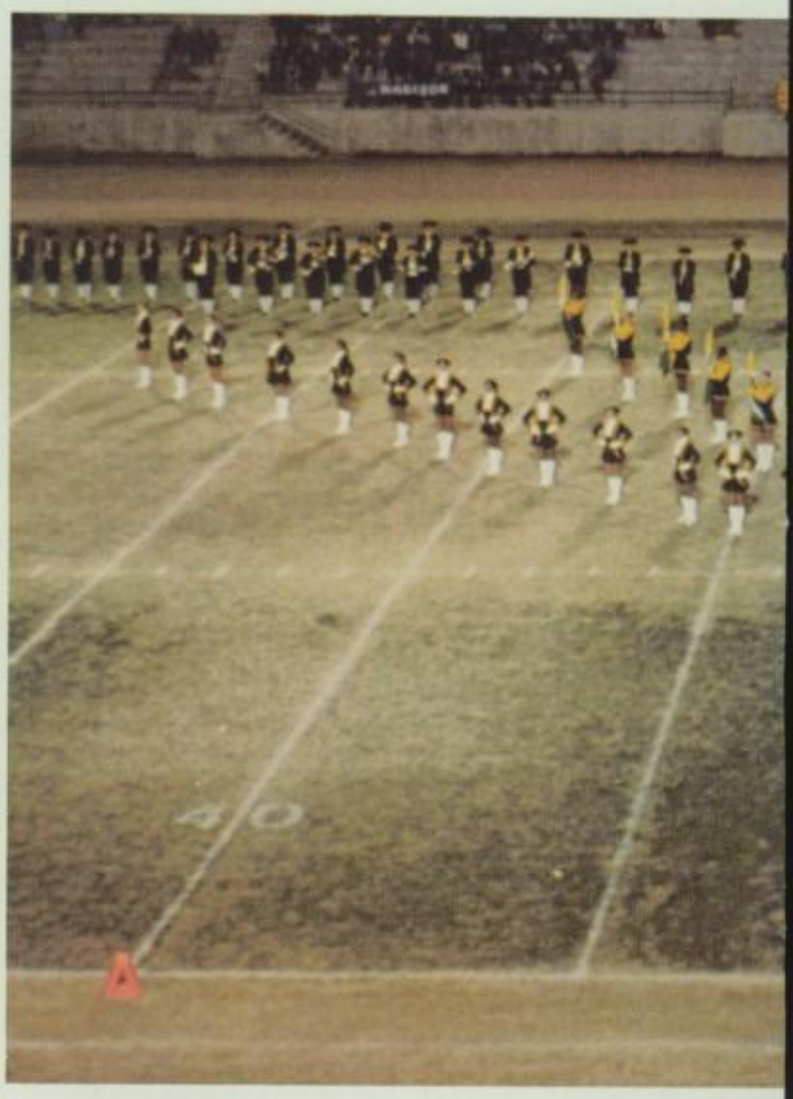
Band Marches to Top Honors in 1981-82



The 1981-82 Patriot Marching Band had its second year under the direction of Mr. Warren Torns. Through his leadership and dedication, he turned the band into one of the top competing units in Southern California. The band started off the year by placing second in the Fiesta de la Lunce parade. At the Mt. Carmel Invitational Tournament, the Spirit of '76 took first in their division in field show competition after they performed their most complex and exciting field routine ever. Their success was attributed to the overwhelming energy of the musicians combined with the daily three hour rehearsals. Outstanding performers include baton twirler Linda Evey and field soloists Jeff Eishen, Steve Dorman, Libby Cook, and Damon Ferdman. The over-all enthusiasm together with the strong leadership made this year the best in the history of the Patrick Henry Marching Band.

Halftime

Everyone is In Step

A Marching Band, a Drill Team, a Flag Corp, the Baton Twirler — the Director, put it all together and you have a halftime extravaganza. When Walter Camp established the rules for football in 1880, he could hardly have forseen the effect the halftime break would have on the course of American music, or the effect upon a high school such as Patrick Henry. Over 150 people involved themselves with the 12 minute period when the football players left the field and the entertainment began.

Each different member kept in step under the direction of Mr. Warren Torns, playing their instruments to the best of their ability. When all the players with the varying instrumental sounds and steps were put together, it created a show that added to the excitement and atmosphere of the football game. This year's field show contained such tunes as "Hello Again," "Somewhere Over the Rainbow" and "Birdland." Besides performing at Henry's home games, the band put on shows at the Henry-Morse game at Madison and the Holiday Bowl. After the show, the band continued playing in the stands, where their own personalities showed through.

TOP: The trumpet section plays "Pictures at an Exhibition" during one of their halftime performances. RIGHT: Ernie Maschner, the drum major, leads the band down the track. BELOW: David Erwin and Crystal Beese play "Somewhere Over the Rainbow" with the band.

The drill and flag teams marched with the band to provide additional entertainment for the spectators. Routines were learned after many long practices over summer and after school. The two teams had their problems, partly due to the all new leaders and advisors. The drill team advisor was Mrs. Dierker. The flags, under Warren Torns, were advised by Angela Rodil and Debbie Jordan, of SDSU. The leaders were Captain Sharin MacCullough; and Lieutenants Becky Lee and Patty Williams. Overall, they did an exceptional job.

Drill Team Shines With Precision

Marching in step with the band, precision moves shining smiles from girls giving their all. The drill team went to competitions throughout L.A. and San Diego. The Columbus Day Parade proved to be disappointing because 3 points were lost for being too far behind the band, which cost them 2nd place. At Mission Viejo, the drill team improved; winning 3rd place in the parade and 2nd in the field show competition. As the drill team progressed they improved a great deal. The leaders and advisor were thanked for their devotion and hard work.

Spirit Cheer Squad Lifts Spirit

This year's Varsity Cheer Squad put emphasis on representing our student body, while promoting school spirit. At numerous sporting events they encouraged crowd participation made the games more enjoyable.

The cheerleaders got off to an early start this year, as their first practice was on the Monday after school got out. Throughout the summer they worked hard. They attended a cheerleader camp at U.C.S.D. where they learned many new cheers and perfected their old ones.

J.V. Cheer: Undefeated in Spirit

1981-82 was a great season for the J.V. Cheer Squad. The Junior Varsity Cheerleaders, led by Gale Rinehart and Colleen Doyle, were a spirited squad that provided enthusiasm at all the J.V. games. The low attendance at the J.V. games didn't seem to bother them, as they helped cheer the football team to their undefeated season.

The cheerleader camp they attended at UCSD helped them to perform better and enabled them to meet many new friends. Even though this was their first year cheering for Henry, they showed the togetherness and skill of a more experienced squad.

Bazooka Joe Club Gets Rowdy

Under the leadership of Jerry Archambeault and Mike Hammond, The Club succeeded in making Henry's games spirited and rowdy. The qualifications for this new club were that one had to attend the football games and be crazy. The Club increased overall attendance events and made them more exciting.

Sing!
Bel Cantos Stay on Top

Singing various types of music, from Baroque to jazz, the Bel Canto Singers retained their reputation of excellence. Auditions were held through out the summer. The week before school started they went on a four day retreat to Julian to become unified as a group. They competed exceptionally well at many festivals and competitions. The ensemble made trips to Northern Arizona University and the L.A. area.

During Christmas vacation they performed at Disneyland with 1,000 other voices. The group remained highly spirited and proud of their accomplishments. The Bels were unique in that they worked a considerable amount on their own with Mr. Keller's advice and experience.

Music Provides Experience

The Girls Chorus primarily gave its members preliminary voice training along with considerable enjoyment. Many of these girls hoped to progress further in music and later tried out for Choir or Bel Cantos. These students combined their talents under the direction of Mr. Keller, a Henry tradition since 1969.

Through performing at various festivals and concerts, the Mixed Choir (top) gained much experience and was considered tops in San Diego. Although the group consisted of several Bel Canto members, for many girls it was the stepping stone between Chorus and Bel Cantos. Under the direction of Mr. Keller, the group displayed spirit as seen in their Homecoming Rally Beatles performance (above).

Service By Many Diverse Groups

The 1981-82 ASB Cabinet saw the election of an inexperienced corp of officers. However, enthusiasm and organization proved to be key factors in their success. Heading the ASB group were President Blake Marnell (at left) and Vice-President Mike Rinehart (at right). Hardworking Blake Marnell assumed the duties of ASB President with many creative projects. In addition, his charismatic personality helped to involve the entire student body. Vice-President Mike Rinehart added his own ideas and led an extremely active Student Congress. All in all, both of these officers provided fine leadership during a year filled with change.

The interns this year, though hassled constantly and the brunt of many jokes, contributed greatly to the success of the activities of the 81-'82 ASB Cabinet. The office of intern enabled more students to become involved in student government, and these 12 Patriots showed their spirit and got others involved. Contrary to custom, the interns did not just sit back and help others, but took the lead and chaired many evertts. They were a great help and made many significant contributions to ASB.

With the huge number of different students at Patrick Henry the ASB had to meet the demands of the students with a variety of commissioners. Commissioner of Student Activities, Erika Logan (front left), worked hard heading up the Spirit Week Activities and contributing to Homecoming and the many class competitions. This year Erika invited many bands to play in the Amphitheater during lunches. Danny Gallagher (back right), Commissioner of Finance, contributed to all aspects of the school and controlled the money matters efficiently. Commissioner of Girls Athletics, Lori Witz (middle left) together with Mike Hammond (middle right), Commissioner of Boys Athletics were on hand to represent the huge number of athletes at Patrick Henry in ASB matters. Heading up ESAA was Matt Segal (front right), Commissioner of Human Relations who planned student exchanges to increase awareness of problems and solutions in student relations. Shari Markson (back left), Commissioner of Publicity did a fine job letting the students know about the events at Patrick Henry.

ASB Gets Students Involved

Stephanie Levine and Angela Blaine (pictured below) served as ASB secretaries for the 1981-82 school year. Their job entailed taking the minutes to all ASB meetings, as well as typing and distributing them. They also wrote thank you letters and, generally, did whatever had to be done.

In charge of this year's intern program were Delegates-at-large, Athena Delimitros and Kathy Mays. They aided the officers but helped mainly on publicity and activities. Lisa Sabella and Maria Grant served as the Cheerleader Representatives. They organized the rallies and offered the ASB support in planning events involving the students. They would like to say "Thanks to our supporting Patriots." (all pictured at lower right).

ESAA and CSF

Indian, Black, White, Laosian, Swedish, Vietnamese, French, Arab, Mexican, Anyone who visited Patrick Henry noticed the extreme diversity of students ethnic background. A few years ago the government enacted the Emergency School Aid Act (ESAA) to help with Human Relations in public schools. This year's committee under the supervision of Mr. Julian and Mr. Gamboa planned many activities including student exchanges with other area schools. The ESAA Committee worked closely with the ASB and Commissioners of Human Relation, Matt Seigal.

The California Scholastic Federation is made up of students with outstanding grade point averages. Students have to take certain classes and get mostly A's and B's to be able to join the CSF. This year 45 Patrick Henry students made the CSF and this represents the top 10% of the school. Under the leadership of James Kosic and Heidi Millstone the CSF held many fund raisers. The highlight of the year came when the CSF sponsored their annual trip to Disneyland. This was advisor Mr. Blevins' third year with the CSF.

We Want You

"Making democracy work; was the Junior Statesman Club's motto. This club, in its first year at Henry, founded by Suzanne B. Schuman fulfilled its intent: to gain knowledge of the democratic system by discussion and state wide conference, and to gain leadership ability. The Junior Statesman Foundation, sponsor of clubs across the country, also puts on enlightening political summer school programs in Sacramento and Washington, D.C.

Key Club Lifts Hopes

"Pursue tomorrow's potential" was the theme of Patrick Henry's Key Club. The Key Club was a community/school service organization that worked with junior high and high school students. Their community projects included visiting homes for the elderly, raising money for the Ronald MacDonald House, and supporting the March of Dimes. As far as school projects, the Key Club co-chaired the Winter Dance and assisted in "Operation Pride."

Contrast Computers, Countries, And More

Beep . . . Buzz . . . Chchchchchch . . . Enter Data. The Computer Age has come. The dawn of the 80's marked a time when computers became a household appliance and just another lesson in math class at any level. Talk of Apples around the school was not necessarily of the eating kind and remarks about "TRaSH 80s" had some people on the defensive. The Computer Corp at Patrick Henry, under Dr. Zeddies, gave some students the opportunity to explore the world of computers in greater depth.

RIGHT: Vince Briel, Ken Hittleman, Dr. Zeddies, Greg Burton.

Science: a term used to describe a lot, from the behavior of birds to electromagnetic forces. With such a wide variety of sciences, the Science Club had quite a variety of students and activities. Field trips included a behind-the-scenes look at Sea World and the SDSU Electron Scanner Microscope. Advised by Mr. Phillips and led by Stuart Forman, they took on the project of cloning a plant. They also went to elementary schools to help younger students with projects.

TOP MIDDLE: Becky Cederwall, Ned Cross, Mr. Phillips, Cindy Girard, Candy Hill, Stuart Forman, Elsie Lou.

1981 was full of highlights, but one that stood out was the successful flight of the Space Shuttle Columbia. With aerospace travel becoming a more common occurrence, students at Patrick Henry and Mr. Berger joined to form the Aerospace Club. Their activities centered around the research, development and manufacture of aircraft, missiles, and space vehicles. "It's not just a club, it's an adventure," became their appropriate slogan.

What did Cuba have to do with Patrick Henry? More than most students thought. The Model United Nations Club was given the country of Cuba to represent in a city-wide conference where they enacted a United Nations meeting. Under Mr. Julian, the club had to adopt the political views and policies of Cuba and acted as this country at the conference where schools from all over Southern California participated.

Meeting each Friday, these 20 or so people formed a club totally devoted to fun. They planned Dungeons and Dragons and Chess tournaments. No previous experience in gaming was necessary because with the large variety of games and levels of play.

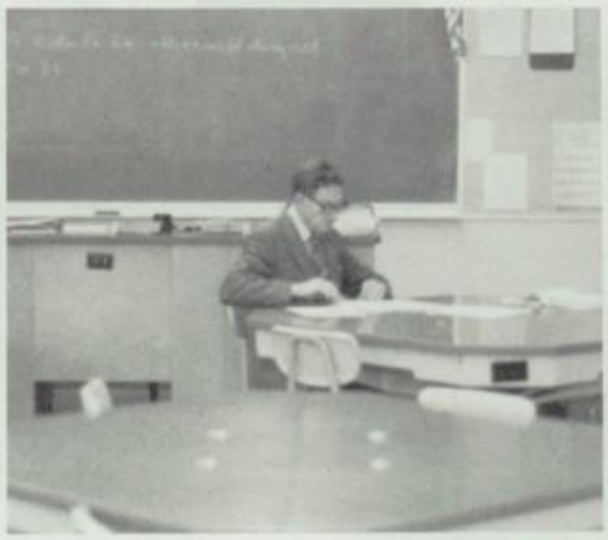
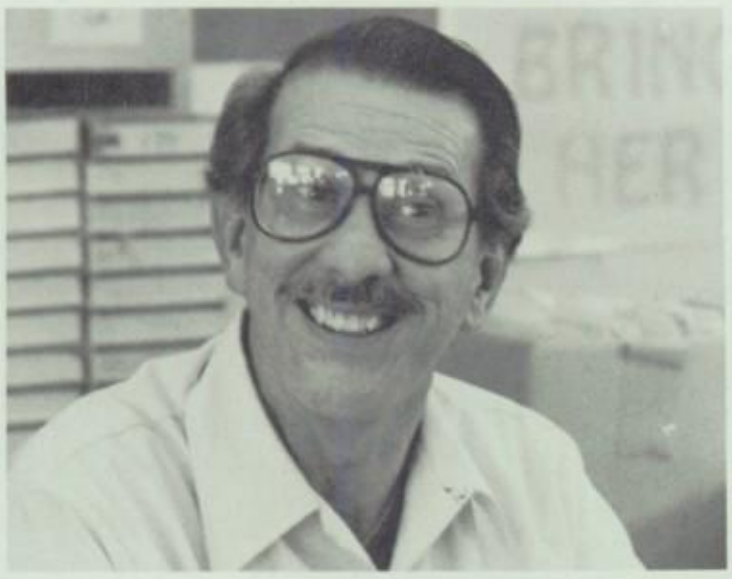
FACULTY

Through Facial Expressions, Henry's



Facial expressions are the means of interpreting moods, emotions and sometimes general personality. Pictured on these two pages are glimpses of various personalities, and moods of Patrick Henry's fantastic, crazy, funny, intellectual, silly faculty. Mr. Henry Lawrence, our Principal, is found laughing at his desk, while Mr. Welch is busy doing his own thing — alone. Mrs. Stewart finally cracked under the pressure of both A.S.B. and Yearbook staff. Walt Richter, career counselor, is excited over the impressive amount of employed students at Henry. Mr. Seifert chuckles to himself as he contemplates the blast off while, Mr. Somesack Thongchanh seems a bit camera shy. Mrs. Shepard can't wait to let her students in on their writing assignment, while poor Coach Thompson stares with pity at the next victim. Lloyd Freet, a custodian, enjoys a well-deserved break. Mr. Wyman hams it up for the photographer. Coach Barry "Macho" Owen acting his usual studley self is directly above Mr. Wilson who smiles as he gives his intellectual view of things. The manager of Pat's Place, Mr. Hall, smiles proudly, while Coach Leon laughs in the face of his next opponent. Mr. Millstone gets a kick out of the guerillas as Rosie, a member of the security staff, day dreams. Coach Sherrie Dierker shows her dimples while Mrs. Chancer gives a look of surprise at the fact that her students did their homework. And lastly, is Coach Baranski taking his afternoon siesta. Wonder what he's dreaming about?

Faculty Shows Their Differences.



Our Fearless Leader

Patrick Henry was given a new leader to replace the five year veteran Frank Thornton. This new man is our fine principal, Henry Lawrence. Mr. Lawrence, a man with a large field of experience behind him, was educated predominately at the University of Massachusetts, but attended SDSU for additional graduate work. He has held administrative positions at several San Diego schools including Point Loma, Madison, Lincoln, and Kearny. Along with Mr. Lawrence's extensive experience, he had an abundance of enthusiasm. When offered the position he jumped at it, and he hoped to improve the campus gradually through positive contributions.

Mr. Lawrence enjoyed leading Patrick Henry and was a definite asset to the campus. Always willing to lend a hand, he shined on the administrative staff and proved himself a dedicated principal.

ABOVE: Poised and confident our new principal, Henry Lawrence, is prepared for action. RIGHT: "Now, where is that yellow-bellied sap sucker?" Mr. Lawrence is ready with his camera.

Vice-Principals Give It Their All

James J. Dobbin
Administrative Assistant

The Vice-Principals at Henry were determined to do a good job.

Despite the fact that two were new to PHHS and the third was only a two year veteran, they accomplished this goal with flying colors.

All of the Vice-Principals greatly enjoyed their jobs and received much satisfaction from the results of their efforts. They thought of themselves as assets to the staff, which rightly they were. The one important asset was, as Mr. Gamboa put it, "getting along with the young people."

The Vice-Principals' main objective for the year was, as quoted form Mrs. Kramer, "to have the year run smoothly and have the students succeed.

This was accomplished with the help of our enthusiastic Administrative Assistant, Mr. Dobbin, an important and knowledgeable member of PHHS Administration since the school opened. The three Vice-Principals enjoyed helping out the students whenever possible. As Mrs. Thomas said, "I love my job at Patrick Henry. It's the best school in San Diego.

Teachers Are People Too

Patrick Henry students are versatile, diverse, hard working and enthusiastic, but what about the teachers? The Patrick Henry Faculty is made up of people from many different backgrounds who have a variety of interests. One thing they all have in common is a love for education. There probably isn't one student who hasn't had a favorite teacher; a teacher who has made school interesting as well as fun. Learning can be fun, and exciting and a challengeiing experince. Patrick Henry teachers knew it.

Contrary to what some may think, teachers do things other than teaching. One Patrick Henry teacher mentioned the time he went to the movies. A student sat down in front of him and said, "Coach, what are you doing here?" Often students are surprised to see a teacher at the grocery store, gas station, sporting event or the movies.

The Special People Who

Teachers are people too! They have hobbies, they travel and are involved in many outside activities.

Much credit should be given to the faculty of Patrick Henry. They play an integral part in the success of Patrick Henry students. They are with students every day; teaching, learning, and communicating. To be a teacher it takes patience, cooperation and understanding. Patrick Henry teachers have what it takes.

Without the special people who make up the Patrick Henry faculty the school would not be what it is today. When asked what his hobbies were, MR. ENGLE mentioned fishing and that he was looking for Moby Dick. MR. KELLER, the choral instructor, said people were his hobby and SOMSACK said his hobby was fishing and playing the saxophone.

MRS. HERRON, one of our counselors, enjoys archaeology and participated in an archaeological dig at Bancroft Ranch. MRS. HERRON also loves the people she works with and likes to make people laugh. Another counselor, MR. HEDMAN, mentioned that he enjoys photography, travel and music. He went to British Columbia and Canada this summer.

SHIRLEY PHILBROOK, MARILYN HAMILTON, KIM BLOWER, SHERRY DIERKER, ANNELIESE MARSHALL, JANET LOWRY, KATHY ROTSHECK are all teachers in the Physical Education department. They told us a little bit about themselves. SHERRY DIEKER was a cheerleader in high school and got thrown out of a football game for leading nasty cheers. KIM BLOWER said the thing that makes her unique is that she is extremely happy. The key to MRS. MARSHALLS uniqueness, she says, is that she's a Kraut. JANET LOWRY taught three years in the Peace Corps in West Africa. In high school she swam in the school pool with her gym clothes on . . . after the teachers had locked up & gone home. When asked what makes her unique, SHIRLEY PHILBROOK said nothing, she just fades in with the crowd. She likes movies, live entertainment, travel and bike riding. KATHY ROTSHECK feels she is unique for her dashing personality and superior exterior.

MR. TONY MARINO is a Psychology teacher at Patrick Henry. In high school he made two dates for the Junior Prom and tried to break one. He got very ill that week, didn't take either one and missed his prom! "What a guy!"

Teachers Show Their Versatilities

MR. AUER, the drama teacher, when reminiscing about his high school days told us that he did a love scene with Miss California and got arrested for having an open container while cruising Hollywood Blvd.

MRS. KRAMER, one of the Vice-Principals, lost her slip while standing on bleachers during an annual Spring Concert. Both straps broke and she had to slip under the bleachers and creep off the stage through the back curtain.

MR. RICK CARROL, a history teacher, saw a flying saucer when he was in high school. MR. DALE HALL, the business education teacher, used to go down behind a sawmill during his lunch hour and run across floating logs.

PAUL ZETTS is the special education teacher at Patrick Henry. In 1964, he ran for A.S.B. President. He and his friends made a 15 foot high sign and put the "S" backwards. They didn't realize it until thay had it finished. So, they told everyone they did it to attract attention . . . he won!

FRITZ ZIEGENFUSS, the basketball and volleyball coach for Henry, messed up the final line in his graduation speech — "Ask not what you can do for your country, but what your country can do for you." He feels that he is unique in that he is slowly bridging the unfortunate gap that exists between being a good friend and a good teacher simultaneously.

Setting The Pace For Education

RUSS LESLIE, the assistant football coach and tennis coach, has enjoyed cycling through Europe. Coach Leslie is unique in his love to propel himself to great distances. MR. ROBERT IMLAY is the baseball and softball coach and he feels he is unique because he allows those he cares for to be what they choose without insisting that they satisfy him.

When asked what made him different, WALT BARANSKI, the junior varsity football and basketball coach said, "Being handicapped is different, but it's something I love to do." MR. PIRAZZINI teaches Spanish. He traveled to the jungle of Mexico studying ancient ruins of the Indians. Some interests are tennis, boogie board, studying archaeology and playing sports with his sons.

FRED CARBONE teaches history and the one crazy experience he remembered from high school was graduating. JEFF BAUM, who teaches math and social studies, led protests against the Vietnam war and the draft. MR. ROSS, another psychology teacher at our school, said when he was in high shool he thought he blew up the city of New York by dropping pure sodium into the sewer manhole covers. When MR. SWENSON was asked what he did crazy in high school, he told us that crazy doesn't begin until middle-age there is no life before 40. MR. SHAFFER, one of the biology teachers at Henry raided a girl's slumber party. He has enjoyed wildlife, backpacking, photography, and landscaping.

I beat up Stuart Forman in the sandbox. Turned 6, all the kids in my class came over for a party — Nancy Miller cried the whole time. Going to school with the same kids. Band and playing the trumpet gave me the 602 blues. The first band overnighter how can I forget "Hail Wally" Forever. What a night with Sabrina, Brenda and of course Nancy with her funny brownies. The 2nd one was a disaster I can regretfully say that I spent the night with the "Fearsome Foursome" God help me — I don't know how I made it through the night. Body was covered with bruises, NS, LM, DH, and NO I'm glad you guys graduated a year ahead of me. The final year, back again of course with Sabrina and Rachel and group — poor Disneyland will never be the same. I met alot of people my high school year. Help I'm dieing in world affairs. I even met another Barrett. Became good friends — thanks for the times and the prom, and secretly JE who will never even know I exist. And Stefan Jr. Prom — oh what a fun evening even if we were a little late — 10:00 — and even if I blinked when the guy took the picture, we had a blast. And Mr. Torris, your part time student will make it as a musician one of these days. Gayle — one of my closest friends — hang in there. And curls and Melrose Shmoon . . . To the Max! Yeah! BEAUCHAINE, PERRY To all those I have known, and those I will come to know. To them that I have pushed aside and called my enemies, to all people and things, I hereby dedicate this writing. Life is but the playground of reality, its soul existence is to experience eternity, and what is experience but education uttered profoundly. The education of the consciousness of man is through existence. Experience creates existence which alters the ideas that shape all reality, and reality exists in, its through that which experience has taught us. For all experience will be ours in time and the consciousness of man shall pass through all reality. Once the awareness of existence had given itself to man, his intellect moved to improve that existence, thereby highten — his live experience and he instantly traveled to a greater education. This goal of man gave purpose to his existence. For a race without goals will regress and decay. A race without purpose is a race in chaos. Man has chosen the most profoundly rewarding and explicit purpose: to improve himself and his live through higher assistance. And as he experiences this existence he will be educated, and shape the life in which reality plays. A race of eternity is man. Given time he will grow and touch all things. His dreams will lead him, his hands will find the way. And though man will discover these things in life, he should not forget whence they came, but from within him. Man is the creator. Fate and destiny are his blueprints. No other has climbed so high, or fallen so low. And when man finally leaves his home, he will leave his footprint upon the stars themselves, for all to see . . . — from "Cuptesphenca" by the Lord Poegun of the Lomex

BOOTHE, STEVEN — Well, I've had my share of broken dreams and more than a couple of falls. And in chasing what I thought were moonbeams I have run into a couple of walls. I've had my share of broken dreams as well as a couple of falls and in chasing what I thought were moonbeams I have run into a couple of walls. BROWN, CAROLYN
BROWN, ERIC
BROWN, ERIC
BROWN, JOANNE — Well, I really have to thank God that I finally made it. It's been hard and sometimes I have to question if it's worth it. Those long three years at Henry. If anything, the only thing worth telling. . . . I mean really, really, worth yelling and screaming about is the fact that I'm graduating. During my sophomore year it was a complete dud. That's because I really didn't know anybody. I guess that's why I was a pretty good student. Towards the end of my junior year was the time where I really started to hate the school life. I didn't care about grades (although I cared enough not to get an F) I guess it was the atmosphere. I started to know more people though and so have writing notes to Jennifer, Renee, Leslie, Sherrian, Vickie, Stephanie, Sunseria, Patty, Sonya, Yvette, Mina, Sabrina, Nadine and Cynthia. Now since I'm a senior I kind of like Henry, although I don't write notes as much. It's kind of a miracle though because there are alot of trippy people that go here. Sometimes their attitudes will just make you want to speak certain obscenities. Most of the time I don't let it get to me. Anyways, this year I've met quite a few people and overall it has been the best year ever. Now everybody knows that "82" is live and has been the best year Henry has ever had. All of us seniors have made our mark and will always be something those other youngsters will remember. Well, truthfully at Henry there are very few things that I'll miss. Maybe some of my friends that will be going here next year. Maybe a few of the teachers that I liked. That is mainly it. I would like to say thanks for the help that everybody has given to me during my life. It has been greatly needed and appreciated. Plus I want to give all my love to Kenny. Bye, now.

CAMBELL, CRAIG
CAMPBELL, DAVID NUMBER SEVEN. DO YOU NOT KNOW THAT IN A RACE ALL THE RUNNERS RUN, BUT ONLY ONE GETS THE PRIZE? RUN IN SUCH A WAY AS TO GET THE PRIZE. EVERY-ONE WHO COMPETES IN THE GAME GOES INTO STRICT TRAINING. THEY DO IT TO GET A CROWN THAT WILL NOT LAST; BUT WE DO IT TO GET A CROWN THAT WILL LAST FOREVER. THEREFORE I DO NOT RUN LIKE A MAN RUNNING AIMLESSLY; I DO NOT FIGHT LIKE A MAN BEATING THE AIR. NO, I BEAT MY BODY AND MAKE IT MY SLAVE SO AFTER I HAVE PREACHED TO OTHERS, I MYSELF WILL NOT BE DISQUALIFIED FOR THE PRIZE. YOUR FRIEND, PAUL I CORINTHIANS 9:24-27

CHADWICK, PATRICIA

CHAMBERS, GIA

CHAN, WAYNE Although I've only been in Patrick Henry for one and one half years, I've met many new friends and new teachers taught me a lot. Mr. Carroll's history class showed me how to fall asleep with my eyes open. In Coach Leslie's class I developed the art of spraining my ankles in five easy lessons. But my favorite lesson was when I learned how to ruin a lab experiment faster than anybody in class. I still say the last explosion wasn't my fault though. I've made a lot of friends since I left F.P. last year (By the way, eat your heart out, F.P.!) and some of them are people I'd like to know better. People like DS, MR, MP, and SN. Then there are my best friends during high school. This is because they are the strangest and most entertaining people to be with. First, and not in any order, is P.C. He must hold the record for the longest telephone conversation in history. I find myself talking with him in the early hours of the morning discussing such topics as sportscars and Europe. He takes the time to talk to people. Then there is C.S., the "basketball wizard." For some reason, C.S. will bet you anything as long as he is sure he will lose. He already owes me three 7-11 Big Gulps! He's one of the funniest friends I know, despite [illegible] jokes. W.C. is another friend I have. He's funny too. But he's only funny when he's insulting you. Come to think of it, he's funny most of the time. Last of all there is my brother, he's still a friend. Thanks to all of you.

CHANEY, TWANA

CHANTHARATH, SOMCHAY

CHAPA, DEBORAH — The daze spent here are long and many. I remember how I dreaded the thought of THREE more years of school, but thanks to a real true friend, Carrie Bloom, I made it. 10th grade — Michelle's out hitting the bars and I'm tumbling on the floors. We had a blast in Disneyland with "Lucy in the Sky with Diamonds." Wow! The July 4th skyshow was intense. That night let it be Lowenbrau. THC rocked into our lives as we went to over-the-line all chinese eyed. Hey, it's my sweet 16. Magic Mountain was a fun way to celebrate. Thanks for all the H.O. Michelle. 11th grade — Thank you Mr. Julian and Ms. Ideis for the best learning experience I'll ever have. BARRR!! Shrooms aren't easy to paint. Hey C.B., remember Huntington Beach. We sure like Pina Coladas ... and getting caught in the rain. Our "Nasty Habits" appear often. Their fantastic. Another summer spent dazed and confused and burnt (out). MC, CB, and me, hitting on the moonshine rocking in the grain forever. Yea! It's the last year. Carrie's no longer jail bait and Randy's drinking age. Watch out! Hi Michelle M., Kristi, and Lori. We had the best time in English. Let's keep in touch. O.K. Gee! It sure snows alot in San Diego. They say the best is always last, and it sure was. Good-bye Patrick Henry. Hello Everybody!

CHAVEZ, VICTORIA — This is to everyone at Henry, but especially those that I've laughed with, cried with, loved with, and fought with since my first day here on April 13, 1980. I have seen and done many things. Some of which I'll probably never do again — fortunately or unfortunately, whichever the case may be. High school years are the best years of one's life. I've been through alot these past 3½ years, good, bad, or indifferent. But even if I were given the chance, there isn't one thing I would change. Every mistake that I have made during these years I have paid for and learned from. Well, friends, it is now time for me to move onto other things. They may not be bigger, and they're not promised to be better, but they will BE. And I have no choice but to make the best of them. My apologies to all those that I promised as part here in my write-up. But if you know me well enough, then you know what I'm trying to say. Thanks to my family, who was there all the way. Thanx to my friends of whom I couldn't have made it without — Amy, Greta, Sharlene. Now I want to thank someone who is very special to me, Troy David Mealey, you will hold the world at your feet if only you believe. There is much for you to learn, much for you to live. Meet your challenges with full force and NEVER GIVE UP. Remember that the cycles of time are always on your side if you only believe.

COOPER, PETER In tenth grade I enjoyed the excitement of dissections of fetal pigs and how funny white shoes are to look at, how Jeff and myself carried out an array of nefarious missions of psychological warfare against Mr. Kleitsch, how to survive with my comrades maths diurnal course, and how one hour of conscious meditation is more exciting than Pub Spot. Now Eleventh Grade was a different story. Learning History from a great person like Artemisz gave the day a sparkle, not leaving out my only competition Adam. Chemistry taught by the great Blevins and my excellent lab partner Wayne. Photo with Ian, Paul and Ed Schaffroth who gave me back the confidence which I thought was lost. English with Carol, Lana, Sasson and Jeff my treacherous friend, and last but always least the big bird from the sky badminton star ing the great Nunley, Grey and Goodman?, and a party of others but what happened Derek when I we up to par or was it that we didn't conform or fit that mold I guess we will never know. Twelfth grade seems to be starting off with an interesting game of badminton with my partner David "Alright David I'm sorry I picked the wrong side", what a grouch just joking you are the best partner I ever had. Physiology with an interesting period composed of practicals, power tests and fun research papers. Yearbooks picture taking was somewhat fun and interesting wasn't it Kurt. English with a teacher that was so different and who's vocabulary was equally so. Physics had to be about the strangest class I have ever had. Paul, Larry, Dan and Gina my true everlasting beautiful lovely Genius "Come on" get to work or get a "slippering on the bottom", and now the day ends with an interesting sleeping period in Social Studies. And now the end is near how can I say all that has happened, my meeting really neat people like Stacee with two E's, Robyn, Sandra, Gina, Habib and many more. Now comes the big closing statement, I would like to thank the Academy for making this all possible (Shut up Wayne). I want to thank my Mom and Dad for all that they have done for me and also want to say "WAYNE YOU ARE THE BEST FRIEND I HAVE EVER HAD AND HOPE YOU WILL CONTINUE TO BE, EVEN THOUGH I AM A SUPERIOR BEING"

EVERETTE, DAVID. Well on June 16th I, David Everette, will attend my last assembly at P.H.H.S. Being a student at Patrick Henry High was something I'll never forget. It brought me lots of knowledge and a great deal of understanding. I hope to grow day by day and in every way. My first year at Patrick Henry brought me nothing because I wasn't ready to explore the world of being at High School. But, as time went by, I became a member of the track team. As a member, I ran the 880 relay. I also ran the mile relay, but not that often. Then, before I could turn around, I was a Senior getting ready to face the cold world. I mean, the year that I met for had finally come and I'd be here to make it through it. With the coming of this year comes the problem of saying goodbye. I guess this is goodbye to everybody that I once had the chance to talk to and really get to know. So Goodbye. "THE BEST IS YET TO COME". / (I LUV YOU ALL! Bye T.S., P.G., L.H., M.D., M.H., K.M., V.S., D.F., J.E., M.E., P.E., P.J., D.R., R.K., E.R., J.K., M.B., D.B. THE YEAR OF 1982 holds a lot for me and for you.

FERNANDEZ, DAVID
FISHER, BRAD — Hello P.H.H.S., sorry you didn't welcome me my soph. year with the same vitality. Grappling under J.T. (N.N.) and D.B. made my first year a little more promising. JUNIOR year — E.J. returns! Hi George! Wrestling picks up and the "Brats" are formed: thanx L.C., A.S., A.S., P.K., (T.B.), R.K. Thank you, you really helped me grow up this year. Then I had my ears lowered for my new job at S.W. SENIOR year — I exchanged my job for a Varsity letter. Strengthened a friendship to last a lifetime. And managed somehow to pass all my classes (how I'll never know). So long P.H.H.S. So long cramming for finals. So long to the lousy teachers. So long to the great teachers. So long to some of the best friends I've ever had.

FLEMING, CELLI — It's been a good 3 yrs., even if I hate school. I've met a lot of nice people but the most special one of all is Paul. Remember the first day of school? We didn't know where any of the rooms were. The times I remember most were in the summer. The stadium concert was fun. But oh my poor cooter! Did you like the mesquat? Think of all the beach parties we had. Paul, there were no sparkly spots in the sand! Believe me! 11th was funny. Gene you should be more careful about those bruises! Photo: I was a blast with Paul. Mr. S must have thought we were crazy. The dark room was funny. "Paul don't touch me, I didn't touch you. If you didn't, who did?" Stacey and Colette were always around. If you couldn't see them, you could hear them. Summer was really fun with the Kupers, Mrs. K. "Prepous", you should stop looking for those "B. Balls." You know they're only out in the summer. Ha Ha, I never got a ticket! 12th was a strange time. Too strange! C.S. is now C.H. and now there's a M.H., C.H. and a B.F.H. Gene and I go back and forth like pogoing balls just for the fun of making up. I can't keep track of S.K. cause she's running back and forth from here to North County. You never know about Sinty, Paul, Eric, Gene, Don, Ron, Mike, John, Steve, Joey or Mary because they're always hopping around with bunny ears! Poor Mom, no more notes, Cathy, this summer we are going camping for sure. Hi Mike! You're so special. Thanx Gene, I Love You! Bye Hotchy! No Delmas Steve.

FOLEY, KEVIN — 10th, right bk. from AR. J.V. Polo, play some V. J.V. undefeated. Go to Clam, Sept. 29th, 1980, totally mad! K.K. party/ Get arrested with T. Mc. HARRISON, DAVID These last three years were something — so many things to remember. Somewhere near the beginning, I met Doug, who turned out to be the closest friend I've ever had (from foreign countries to getting nailed for watercoloring the school . . . yeah, we've been thru some doors together, haven't we?). Another of my best friends is ambitious, intelligent, and fun to be with. He also has a pension for Roches. Yes, Stuart, Doug and I were the Three Musketeers (what are we? what are we not?). Ah, yes, Dungeons and Dragons, a great game which brought together a wonderful group of people. There's Glen Tarr, the happy-go-lucky '60's fan and a hell of a person; Stuart, Doug (Dhokar and Dantion will never die! . . . shhmm . . .), Jeff and David Blutinger — Marxist and radical; David Katz, and a number of others. Oh, PHHS itself! Calculus class w / Mrs. Kutnik, who thinks D&D is "stupid", and who is the creator of "Miss Personality", the bane of all calculus students. Then there's Arthur Schor, the self-made man who thinks he put in too much yeast, and the best English teacher PHHS ever had. He filled our eager young minds w / ambition and (of course) existentialism. Philly's bi-sloggy class, where we developed germ warfare and Blevins' chemistry class where we had to develop germicides. Mr. Walker, who got me into politics. Mrs. Hernan, my counselor, without whom I'd have been in big trouble; various security personnel who wanted me in trouble . . . the list goes on. I'd like to say good-bye to Craig, Richard Y., Richard S., Wayne, Marc, and Amber. Good-bye, Becky (. . .). Best of luck in the Ivy Leagues, Stuart. Tell me about it while I'm at SCUD (if I'm not @ John Hopkins). Socialism, huh? Well, Doug, we're out. And there are plenty more doors to break on through. To all of the above, take care of yourselves, and don't hesitate to count on me. . . . Take the journey . . . to the bright midnight . . . w / the cool grinding grizzly bear jaws hot on your heels . . . this is the end, beautiful friend . . . heh-heh . . . they'll be judgin' hell be fore I'm gone! . . . Sure thing! . . . the only solution ISN'T IT AMAZING?

JAMESON, BRUCE

JAMESON, SCOTT At last the end of three years of high school. They have been fun and filled of great experience. Learned a lot about people and of a lot of subjects. Picked up running and hope that will lead to a good future. My senior year being the best after meeting a wonderful and fantastic person. Thank you so much for helping me break out of my shell. Eileen you make everything so special.

JARMAN, RHONDA So many smiles, so many tears, so many fears, I've learned so much in these past three years. I've learned who my real friends are and who the people are who claim to be your friends, but they fade away when you change. I changed alot, I guess we all do. When I did though, alot of people I thought that were close to me couldn't accept it. At least I can say I know who I am and know what I want to be, and that's alot more than I can say for most people. I'm not putting people down for who they are, I've been put down all my life for who I am ... and that's not right, but its the way society is. I've had alot of true friends though, Denise, we grew up together. You will always be in my heart. I love you. Old Dan the memories will be forever. Frampton, I love you little fellow, where ever you are. Shelly so many good times. You were always there for me. You are a true friend. ILY. Greta noone will ever know all we've been through. True friends last forever. Love you. Scott we've become so close in such a short time. I hope we stay that way. Love ya. Kary and Brenda thanks for always being there to listen. I finally found someone very special to me, dream boy — VS. I'm going to make it! How many times have you said to yourself "I wish I had everything in the world and could do anything I wanted" — and if people didn't like it ... I would tell them. Pat Benatar #1. Rebel.

JONES, ALONZA

JONES, DILDREA Life for me would have been just another day for me if Gabriel was not in my life. When I first saw him I was only 15, he was 18. He believed I was the same age as he. But I was not. I love him and respect him more than anyone else I know of. I pray every nite that everything between us would be alright. For when it hurt him I felt way behind in school. My grades went down. I just lost com-

plete interest. Gabriel please forgive me, and understand. Just give me a chance and be my man. Life is the most beautiful thing in this world to me next to love, and all this and respect I give to you (Gabriel). My wonderful family. I love you all. KAMGAR, FRED

KARAFFA, KEVIN To my friends, I'm reluctant to admit that Jim Morrison was wrong about one thing. "This is not the end, my friend." We shall succeed and conquer the Social Darwinism Society until we are overweight with receding hair lines. Jeremy, we've been best friends ever since the beginning of Jr. High — thru thick and thin and blonde and brunette. Somehow we've remained good friends. I await Chuckie and your triumphant return so that we may return to our weekly chaotic missions, so we may all reunite, because good friends should never be apart. Chuckie, I leave you with the K.K. trio and Owls of Life. Eating lunch with Hari Krishna's, Team Goon, bermuda, Hasenfeller, "the street," Solana Beach, Fire extinguishers, and driving with Don on the surfboard racks in "in". But 280ZX's, Girls with boyfriends, the Army and blowing chunks is definitely out! . . . As for David and Rick, it was great skiing on Mt. Mottonous but the guy in the basket kept getting in my way (What's Kamikaze Karlo! to do?) . . . Rick, I'm sorry about your mom's plant being mentally unstable. Don, you won' the quarters game that you made offlah of yourself. In conclusion, I will add that these carefree Kamikaze High School days have been our best years and that I shall never forget them but reminisce softly and quietly with and enormous grin on my face.

KLAUS, DAVID

KLEIN, CARL

KOLER, RAY

KOPALD, ADAM Just a word to all the inconsiderates who don't think twice before disposing of their wastes in the drinking fountains. They are not spittoons and should not be used as such! This includes all you jerk wonertobacco chewing rednecks who insist on inflicting your own vile problem on everyone else. Furthermore, it is not at all appealing to get a drink with your face in the remains of somebody's soggy combo. Cut it out! A final word of thanks to all those beautiful girls at PH who taught me the real meaning of misogyny. And thank you, U.S. Dept. of Education, for 12 years of frustrated irrelevance.

LOSLI, KARRIE Giving up on two can it alone. I had no room for more than me. No room for hurt again. Tried to pretend I didn't need a friend. Hid myself, thought I had no need for others. But physical need is just what keeps us going. These needs are only what makes our marital wood flaw. I'm so glad I met you because having friends makes life worth living. Lately I look back to the time two would not be. I still will not be, because, we are now. I'm so glad were one now for now and forever, to the end of all time we'll be one. I love you Mom, Dad, Lan, Tobey, Tam, Randy, Carlie, Bob, Beth, Mark C., Jeanette, Jels 81 & 82, Alicia, Tammy, Kelly, Karen Carson, Lisa, Mr. K, Laurie F. it isn't your name out it's not because I don't love you. I often sit and wonder why I do not see myself much as of this I've found the reason and to you my friend will tell, knowledge is the root to all. To know you see is to yourself know. Because inside your earthen vase is a stem to the universe incased. Nourish your mind and giveth your heart and so shall blossom you the bud you've played the part. Love you Steve. Beth, to the end of all time we'll be one. Heartfelt gratitude for life from Christ, God's heavensent.

MITCHELL, MARK Hey Brothers, I guess it's time to check out of this thing. Ain't nothin much to say except that I had a ball. I past time with OI' partesers, and made some new ones. It was a fabulous party that has come to an end. In the year of 81 me and my Ace pards brought forth the spectacular CSS gang. These boys hung tou together at all times and were tighter than this no doubt. The Brothers adopted a theory of no crippin just tropping and plenty spanen with banken. We know the game and have remained the same. The Brothers are Rob, whose quick feet and sharp mind make him the ultimate ladies man, then smooth Billy steps in, this kat has snaps comin out his shoes. Needless to say, a heartbreaker. Last but not least is Reese, he's got a humorous side that defies explanation. He's sort of a Rich Pryor Giggle doll. That's it for the Brothers. I've got to mention Sonya for without whom my life would have no meaning. Check y'all later on the further Brother BYE!!

MYERS, JEFF

MYERS, KAREN Oi Gente, Seems like yesterday I was at the Academy and having fun. I was president of our roughly sophomore class. With Todd Morrow's dumb questions and Jimmy Gomez's rebuttals I had hell in class meetings, but thanks to Doug Garcia and his creative mind we devised ways to entertain the crowd. There was "Lacy's Gang" who liked "Lip" jokes, and "The Stoners", you all know who you are. Besides the usuals "WE" were all one big happy family. (LDR)2 you were the only ones missing. Robyn, remember our dilemia that became our only topic of conversation for months. We almost flunked PE for it. Summer 1980 was the best, but for many reasons we all split up. Our sophomore year, sleeping out, getting mono, playing be-bop. Junior year: we grew up. I met Tim and found out what love really was, started working, getting good grades and got my braces on (what a tragedy that was!) Thank you Ms. Ideis and Mr. Julian, my future is dedicated to you and what you did for me. Tim left for the service and my love stays with him, now and forever. Denise, Williams — alias "Pat-woman!" Now all we have to look forward to is our futures. We will both succeed because we always have, even through the worst conditions — rain, cold trucks, Leroy and Monday night coffee talks! We're adults now! Thank you mom, dad, Rex, Robbie, and Vicky. I love you all, you are my inspirations and my joys. Wards — I owe you my paychecks and my joys and tribulations with Denise, Kelly, etc. Well, now I'm college bound in hopes of making it to Congress. Put together and one has the "Lunch Bunch." 10th — Homecoming w/Susan and Julie Love — Whose dad drove? 12/25/79 skips from friend to love w/Louise. Beautiful relationship which I will cherish. Interlude #1 — Baseball on winning team takes up time when LA's north. Jerry Arch. is still best friend — long talks. Second year is sequel to first. Louise and I become closer. Halloween at Lance's, Norman's raided, two were caught (not us). Homecoming dance was lovely — she was too. Final weeks were great, but all things end. Love always. Breakup: brings new friends. Becky shares three months. New friend, Gordon. Kidnap Lori and enjoy pizza with stars in Del Cerro Jr. Prom also with Gordon — a dinner for four, cruising downtown, but where's the Prom? With the group, commander Cowles Mtn. Easter week in Artic w/Dad and Kelli. Mission #2 is complete. Interlude #2 — summer with Char and Annette, best ever! Erik and I reunite to become "massive". Two parties in three days is daring — Erik, Gordon, Annette, and Char sip liquid — breakfast in bed! Big Bear brings bucks. 17th B-day below border. Pv — with family and friend. "Who has to be 21?" Hilary first in the Continental Club. The third and final year to reconfiliate old friends like Lance and Jeff — Jerry was never lost. Bazooka Joe brings more: Paul, Dave, Mark, Mike, Sharon, Deeanne, Marla, Jenny, Lynne. . . . Pool parties at Marla's with BJ and tailgates. Homecoming w/Deeanne. Naftali springs up . . . tomato springs off. Tricia you're a doll! Christmas was best ever, love you Mom, Dad, & Kelli. Step-family is wonderful thanks Dan for everything. 1982 brings new adventures! SALYERS, JAMES 10th: 10th was pretty fun. I met a lot of new friends B.P. A.B. R.B. K.B. N.C. S.K. P.M. The list goes on. 11th. It was a lot better than 10th. I think one of the best things was Auto Shop. I remember Chris Tarter vs Pinto. We built his engine six many times I can't remember. But when we got finished that was the best. Memories of Chris and his car are like Bacardi & Coke, great. 12th: 12th was great for me, that was when I towed my truck to school, and began the heavy work. I put a 1971 "472" Cadillac with a turbo 400. The best thing about the whole year was the parties at Fiesta Island and when we took the road trip to the mountains. J.H. and his so called disco bug (hah). Not a bad car Johnny SK and his baja sled (ha ha). The one who always burned up his clutch at Fiesta. Like the old saying goes Old Fords Never Die they just get a "472" Cadillac in them. 69 & "50" Ford Pickups Forever. Street is Neet.

SMITH, DAVID 10th The school was big. Mike (bones) Stine (Graddy). De-mos, Sad Kenny, Paul, Brad: we all hanged under the tree during lunch. "Base" was the only way to survive. I can't forget English class with Randy and Holly. Mr. Whyman was the ulti-mate "hard noser." We beat him at his own game we got A's and had loads of fun. 11th The group was back under the tree again. The "base" was better. Paul couldn't "out-it" in Spani-ish and Sad Kenny Dropped. The birds in the tree got me once. Haynes was a bum, everyone knew where he ate. Shaddy Graddy couldn't take the base and left. Warner got "Stomped on and kicked out!" Eric R. Kathy all with Mrs. Idels — "watta" class. 12th No one was under the tree. Bad Brad and I the only ones to hang for the third year, year in Spanish. A great class with Mr. Parsons. Grave-yard parties with Ron, Mark, and Keith — "watta" night. Lost my voice at the Homecoming game Pep rallies. Football, basketball. Running lunch times, friends, laughs, all the memo-ries of Patrick Henry will never be for-gotten. I know they've been 3 of the best years of my life.

TWEED, KATHLEEN — Alas, parting is such sweet sorrow. Three years at P.H.H.S. Drama was a big part of my life. Workshop with Auer was fun but bizarre. Children's Theater was the best! I made so many good friends in C.T. We had a good teacher, thanks Larry. I'm sorry it had to end. I enjoyed it while it lasted. My first academy award, Thanks C.T. "The Miser" my big break. I loved acting in that show. It was the first time I got to act with Larry. It was great, but does it have to end? I will miss "The Miser" but Dame Claude will too. C.C.T.V. Larry, Kary, Brenda, Richard, Jeff, Rhonda, and Dena. Quiet on the set, action! I love the movie business. Could this be it? C.C.T.V. and C.T. what a team. I will remember the good times with children's theater. At the reunions and my camera! I will call the C.T. class of 80-81 for another get together in a few years. Mary, your so cute. Take care of Carly for me. Donny, thank you for always being there when I need you. You are so special to me. I love you. Cara Mia, Kary, Brenda, Mary, Dena, Michelle, Jon and Lisa. Thanks guys. Friendship is so important to me. With out friends, life is so desolate. Winter, Spring, Summer, or Fall, all you have to do is call, you've got a friend. Dena, lets go snow skiing. Jump the bumps and borrut it. Tim thanks for the ski gear. You the greatest. Camping and skiing in the camper. Those were the best times. Here are a few of my favorite things. Sunsets, snow skiing, tragedy comedy masks, Don W. good friends, laughing, nice people, fast cars, spending money, animals, loving parents and Bohemians. Day after day, the show must go on, and you picture a memory of days in your life, with time on your side. Thanks for the memories.

The diversity of people is found not only on campus, but is throughout our community, our city, as well as the world. Looking around, we find a variety of faces, interests and cultures, which all combine to form the rich tapestry of our world. When we take the time to risk and encounter people, the experience is enriching and rewarding because it teaches us about ourselves and the community in which we live. It teaches us that each individual can be accepted for himself, his beliefs and his values. Age offers the wisdom of experience to youth; while youth offers the promise of peace and the joy of simple things. One person's music inspires us to excel while another's reminds us to go slowly and live the moment. Cultures offer a variety of tastes in not only food, but dress, interests and values. They challenge us to look at our own, they renew our appreciation of our own, and, they provide the opportunity to learn, grow and experience the richness of variety. Those qualities which set us apart from the rest, are also the very things that make us human-strong, frail, content, striving, hurting, loving — Being. Without this individuality and respect for each other's uniqueness, we lose the chance to reach the potential in each of us; and, our world loses it beauty, its creativity, its intricate and complex character. We must each step to the music which we hear.

Let him step to the music which

Patriots,

Howdy! It's difficult to know where to begin this because there are so many people who helped out and made contributions to make this the successful book that it is. Many people don't realize all the time and effort it takes to put a year book together. So I'd first like to thank all the staff for their enthusiasm, for pitching in, and for somehow always meeting the deadlines. We did a fine job, and I hope you all are as proud as I am of the finished product. I would also like to show my appreciation to one very talented artist, Moe Parent, for his artwork. Thanks also to Herff-Jones and Bruce Smith, and Busco Nestor for their support, and especially Darryl for rushing prints, doing the impossible and always keeping the same good humor; your assistance was invaluable. Last but not least, Mrs. Stewart, one of my best students, who was there through it all, a special thanks to you. Best of luck next year. I quite obviously could not have done this by myself and I greatly appreciate each of your special contributions.

To all the students, I hope that when you look back at this annual in 20 years it will help recapture this year at high school. The best of luck to you all and may all your dreams come true . . .

Take care,
